army basic training graduation dates 2023: The Antiracist Roadmap to Educational Equity Avis Williams, Brenda Elliott, 2023-12-08 A practical way forward for those who refuse to accept the status quo as the best we can do. In 1966, the Coleman report assessed conditions in U.S. schools and identified barriers that prevented Black students from accessing high-quality education. Since that time—and despite federal efforts to close gaps in achievement between students who are Black, Indigenous, or people of color (BIPOC) and their White peers—not much has changed. Racial gaps exist in almost every school-related outcome measure, from attendance and graduation rates, out-of-school suspensions, honors and Advanced Placement course enrollment and passing rates, identification for special education, and college enrollment and graduation. In *The Antiracist Roadmap to Educational Equity*, award-winning school leaders Avis Williams and Brenda Elliott shine the spotlight on the education system's various stakeholders—teachers, school and district leaders, the central office team, and the wider community—and identify what the members of each group can do to replace the structures that hold back so many BIPOC students from academic success and overall well-being. This is an essential book for anyone interested in, curious about, or committed to creating antiracist schools and school districts—ones where academic outcomes can't be predicted by race and students of color are seen, heard, and empowered to bring their whole selves into the classroom. Whether you are already a champion for equity or new to the work, you will find the practical guidance you need to make key changes to curriculum and instruction, navigate the expected roadblocks and objections, and accelerate your school or school system's progress toward educational equity.

army basic training graduation dates 2023: *Outnumbered 20 to 1* William P. Collier, 2023-01-03 Outnumbered 20 to 1 story is a force that transcends ages. Through the development of humankind's culture, the holy vessel of story has exerted a power that defines generations. A good story has the ability to entertain; a great story has the ability to inspire. But a story like Outnumbered 20 to 1 possesses the ability to transform, and so much more. Now retired, Colonel Bill Collier fought firsthand through the devastation and brutality of the Vietnam war. And like many of his fellow soldiers that returned home, he kept many of the stories of his experiences to himself. However, there is one story that Collier knew must be shared in his lifetime. This is the story of his harrowing experience at The Battle of Mo Duc — one of Vietnam's final battles leading up to the signing of a peace agreement that would conclude the war. The Battle of Mo Duc follows then-Major Bill Collier and his team into a hopelessly unwinnable situation with all of the odds stacked against them. Yet even as they stared down their seemingly certain defeat, Collier and his men persevered to victory through what can only be described as the grace of God Himself. Outnumbered 20 to 1 is a one-of-a-kind war story and so much more. It's a recounting of a remarkable life experience that occurs even less frequently than once in a lifetime. Collier's story is not only a story of perseverance

and heroism but of our communion with the divine fabric of existence itself.

army basic training graduation dates 2023: Duty to Serve, Duty to Conscience James C. Kearney, William H. Clamurro, 2023-06-15 Despite all that has been written about Vietnam, the story of the 1-A-O conscientious objector, who agreed to put on a uniform and serve in the field without weapons rather than accept alternative service outside the military, has received scarce attention. This joint memoir by two 1-A-O combat medics, James C. Kearney and William H. Clamurro, represents a unique approach to the subject. It is a blend of their personal narratives—with select Vietnam poems by Clamurro—to illustrate noncombatant objection as a unique and relatively unknown form of Vietnam War protest. Both men initially met during training and then served as frontline medics in separate units “outside the wire” in Vietnam. Clamurro was assigned to a tank company in Tay Ninh province next to the Cambodian border, before reassignment to an aid station with the 1st Air Cavalry. Kearney served first as a medic with an artillery battery in the 1st Infantry Division, then as a convoy medic during the Cambodian invasion with the 25th Infantry Division, and finally as a Medevac medic with the 1st Air Cavalry. In this capacity Kearney was seriously wounded during a “hot hoist” in February 1971 and ended up being treated by his friend Clamurro back at base. Because of their status as “a new breed of conscientious objector”—i.e., more political than religious in their convictions—the authors’ experience of the Vietnam War differed fundamentally from that of their fellow draftees and contrasted even with the great majority of their fellow 1-A-O medics, whose conscientious objector status was largely or entirely faith-based.

Do you feel trapped between being called a toxic male for leading hard, or a beta for backing down? Why do modern leaders fail while Churchill — flawed, hard-drinking, defiant — still stands tall 80 years later? 8 bullet points: - The myth of “toxic masculinity” was invented to disarm men who lead by nature - Why courage isn’t the absence of fear — it’s the decision to act while afraid, every damn day - How Churchill used rhetoric as a weapon when weapons weren’t enough - Why modern leadership training produces followers, not leaders - The secret no one admits: great leaders don’t seek consensus — they command respect through conviction - Why empathy without strength is manipulation, not virtue - How to speak so people listen — not because you’re “inclusive,” but because you mean business - The brutal truth: civilization survives not by committee, but by men who refuse to surrender If you want to lead like Churchill — with courage, clarity, and unbreakable will — then buy this book today.
