times best seller list 2014: *Celebrities for Jesus* Katelyn Beaty, 2022-08-16 □ Publishers Weekly starred review A must-read for anyone invested in the fate of evangelicalism.--Publishers Weekly Many Christian leaders use their fame and influence to great effect. Whether that popularity resides at the local church level or represents national or international influence, many leaders have effectively said to their followers, Follow me as I follow Christ. But fame that is cultivated for its own sake, without attendant spiritual maturity and accountability, has a shadow side that runs counter to the heart of the gospel. Celebrity--defined as social power without proximity--has led to abuses of power, the cultivation of persona, and a fixation on profits. In light of the fall of famous Christian leaders in recent years, the time has come for the church to reexamine its relationship to celebrity. Award-winning journalist Katelyn Beaty explores the ways fame has reshaped the American church, explains how and why celebrity is woven into the fabric of the evangelical movement, and identifies many ways fame has gone awry in recent years. She shows us how evangelical culture is uniquely attracted to celebrity gurus over and against institutions, and she offers a renewed vision of ordinary faithfulness, helping us all keep fame in its proper place.

times best seller list 2014: *Prizing Children's Literature* Kenneth Kidd, Joseph Thomas Jr., 2016-11-10 Children's book awards have mushroomed since the early twentieth-century and especially since the 1960s, when literary prizing became a favored strategy for both commercial promotion and canon-making. There are over 300 awards for English-language titles alone, but

despite the profound impact of children's book awards, scholars have paid relatively little attention to them. This book is the first scholarly volume devoted to the analysis of Anglophone children's book awards in historical and cultural context. With attention to both political and aesthetic concerns, the book offers original and diverse scholarship on prizing practices and their consequences in Australia, Canada, and especially the United States. Contributors offer both case studies of particular awards and analysis of broader trends in literary evaluation and elevation, drawing on theoretical work on canonization and cultural capital. Sections interrogate the complex and often unconscious ideological work of prizing, the ongoing tension between formalist awards and so-called identity-based awards — all the more urgent in light of the We Need Diverse Books campaign — the ever-morphing forms and parameters of prizing, and scholarly practices of prizing. Among the many awards discussed are the Pura Belpré Medal, the Inky Awards, the Canada Governor General Literary Award, the Printz Award, the Best Animated Feature Oscar, the Phoenix Award, and the John Newbery Medal, giving due attention to prizes for fiction as well as for non-fiction, poetry, and film. This volume will interest scholars in literary and cultural studies, social history, book history, sociology, education, library and information science, and anyone concerned with children's literature.

times best seller list 2014: *Cancer and Young Adult Literature* Stephen M. Zimmerly, 2024-12-20 This collection specifically and solely focuses on Young Adult literature texts where cancer plays a prominent role, including widely-read texts like John Green's *The Fault in Our Stars*, Nicholas Sparks' *A Walk to Remember*, and Jesse Andrews' *Me and Earl and the Dying Girl*. The chapters present a variety of arguments, each developing a novel investigation into how these stories explore the effects cancer has on a person, a family, or on a relationship. As scientific studies continue to develop new understandings of the biology behind cancer, and new sociological studies continue to uncover how a cancer diagnosis impacts the fabric of our culture(s), these collected essays continue to investigate how authors have woven cancer into the stories we write for young people. A number of distinct avenues are taken here, arguing for new approaches in crafting narrative, deeper appreciation for family support networks (or their absence), and what literary criticism can uncover when applied to cancer narratives.

times best seller list 2014: The Afterlife in Popular Culture Kevin O'Neill, 2022-06-17 The Afterlife in Popular Culture: Heaven, Hell, and the Underworld in the American Imagination gives students a fresh look at how Americans view the afterlife, helping readers understand how it's depicted in popular culture. What happens to us when we die? The book seeks to explore how that question has been answered in American popular culture. It begins with five framing essays that provide historical and intellectual background on ideas about the afterlife in Western culture. These essays are followed by more than 100 entries, each focusing on specific cultural products or authors that feature the afterlife front and center. Entry topics include novels, film, television shows, plays, works of nonfiction, graphic novels, and more, all of which address some aspect of what may await us after our passing. This book is unique in marrying a historical overview of the afterlife with detailed analyses of particular cultural products, such as films and novels. In addition, it covers these topics in nonspecialist language, written with a student audience in mind. The book provides historical context for contemporary depictions of the afterlife addressed in the entries, which deal specifically with work produced in the 20th and 21st centuries.

times best seller list 2014: Love in the Time of Self-Publishing Christine M. Larson, 2025-09-16 Lessons in creative labor, solidarity, and inclusion under precarious economic conditions As writers, musicians, online content creators, and other independent workers fight for better labor terms, romance authors offer a powerful example—and a cautionary tale—about self-organization and mutual aid in the digital economy. In Love in the Time of Self-Publishing, Christine Larson traces the forty-year history of Romancelandia, a sprawling network of romance authors, readers, editors, and others, who formed a unique community based on openness and collective support. Empowered by solidarity, American romance writers—once disparaged literary outcasts—became digital publishing's most innovative and successful authors. Meanwhile, a new surge of social media activism called attention to Romancelandia's historic exclusion of romance authors of color and LGBTQ+ writers, forcing a long-overdue cultural reckoning. Drawing on the largest-known survey of any literary genre as well as interviews and archival research, Larson shows how romance writers became the only authors in America to make money from the rise of ebooks—increasing their median income by 73 percent while other authors' plunged by 40 percent. The success of romance

writers, Larson argues, demonstrates the power of alternative forms of organizing influenced by gendered working patterns. It also shows how networks of relationships can amplify—or mute—certain voices. Romancelandia’s experience, Larson says, offers crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world. Romancelandia’s rise and near-meltdown shows that gaining fair treatment from platforms depends on creator solidarity—but creator solidarity, in turn, depends on fair treatment of all members.
