

identify the sentence that relies on emotional language

****How to Identify the Sentence That Relies on Emotional Language****

identify the sentence that relies on emotional language is a crucial skill when analyzing texts, whether for academic purposes, writing improvement, or even everyday communication. Emotional language plays a powerful role in shaping how messages are received and understood. It taps into feelings, evoking responses that go beyond pure facts or logic. Recognizing which sentence leans heavily on emotional language helps us better grasp the author's intent, the persuasive techniques at play, and the overall tone of the message.

In this article, we'll delve into what emotional language is, how to spot it, and why it matters. Along the way, you'll find useful tips and examples to sharpen your ability to identify the sentence that relies on emotional language in any piece of writing.

Understanding Emotional Language

Before you can identify the sentence that relies on emotional language, it's important to understand what emotional language actually means. At its core, emotional language consists of words, phrases, or sentences designed to provoke feelings—such as happiness, anger, sadness, fear, or excitement—in the reader or listener.

Unlike neutral language, which aims to present facts objectively, emotional language is subjective and often persuasive. It can be found in speeches, advertisements, literature, and everyday conversations.

Characteristics of Emotional Language

Emotional language typically exhibits certain features that set it apart:

- ****Vivid Descriptions:**** Using imagery or sensory details to paint a picture that stirs feelings.
- ****Strong Adjectives and Adverbs:**** Words like “devastating,” “heartwarming,” or “incredibly” amplify emotional impact.
- ****Exclamations and Imperatives:**** Sentences that command action or express strong emotions.
- ****Personal Pronouns:**** Words like “you” and “we” to create a connection and involve the reader emotionally.
- ****Connotative Words:**** Words that carry emotional associations beyond their literal meaning (e.g.,

“freedom” vs. “escape”).

Recognizing these traits can guide you toward identifying sentences that rely on emotional language.

Why Identify the Sentence That Relies on Emotional Language?

You might wonder why it’s important to single out the sentence that depends on emotional language. The answer lies in understanding communication dynamics and enhancing critical reading skills.

Enhancing Critical Thinking

When analyzing a text, spotting emotional language helps separate facts from feelings. This distinction is vital in academic research, persuasive writing, and media literacy. Knowing which sentence appeals to emotion rather than logic allows you to evaluate arguments more objectively.

Improving Writing Skills

For writers, being able to identify emotional language is equally beneficial. It enables you to balance your writing—knowing when to use emotional appeal and when to stick to facts. This skill is crucial for crafting compelling stories, persuasive essays, or marketing content.

How to Identify the Sentence That Relies on Emotional Language

Now, let’s get practical. Here are some strategies to help you pinpoint the sentence that leans on emotional language.

1. Look for Emotionally Charged Words

Certain words naturally evoke strong feelings. If a sentence contains words like “tragic,” “joyous,” “heartbreaking,” or “terrifying,” it’s likely relying on emotional language. These words carry connotations that provoke an emotional reaction.

2. Notice Tone and Mood Shifts

A sentence that changes the tone from neutral to passionate or conveys excitement, sadness, or anger often uses emotional language. Pay attention to sentences that stand out for their intensity or expressiveness compared to the rest of the text.

3. Identify Persuasive Techniques

Emotional language is a common tool in persuasion. Sentences that appeal to values, beliefs, or feelings—such as appealing to pity, fear, or pride—are using emotional language. Look for sentences that try to connect with the reader’s heart rather than their head.

4. Analyze Sentence Structure

Sometimes, emotional language is emphasized through exclamation marks, rhetorical questions, or repetition. For example, “How could anyone ignore such suffering?” is emotionally charged due to its structure and implied feeling.

5. Compare Sentences in Context

If you’re given multiple sentences, compare them to see which one stands out in terms of emotional appeal. The sentence that pulls at heartstrings or provokes a strong reaction is the one relying on emotional language.

Examples of Emotional Language in Sentences

Looking at examples can clarify the concept further. Here are some sentences illustrating emotional language versus neutral language:

- Neutral: “The project was completed on time and within budget.”
- Emotional: “The team’s heroic effort saved the project from disaster!”

In the emotional sentence, words like “heroic” and “saved” evoke admiration and urgency.

- Neutral: “Many people attended the event.”
- Emotional: “Thousands of passionate supporters gathered, united by hope and determination.”

The second sentence uses “passionate,” “united,” and “hope” to stir feelings.

Practice Exercise

Try this quick exercise to sharpen your skills:

Given the following sentences, identify which one relies on emotional language:

- a) The deadline for the application is April 30.
- b) Don’t miss the chance to change your life forever!
- c) The data shows a 5% increase in sales.
- d) The room was painted blue.

Here, sentence (b) is the one that relies on emotional language, using phrases like “don’t miss the chance” and “change your life forever” to evoke excitement and urgency.

Emotional Language in Different Contexts

Emotional language varies depending on context, and understanding this can help you identify it more accurately.

In Advertising

Ads often use emotional language to persuade consumers. Sentences like “Experience the joy of a lifetime” or “Protect your loved ones with our trusted insurance” appeal to feelings of happiness and security.

In Political Speech

Politicians frequently use emotional language to rally support. Phrases such as “Our nation faces a dire threat” or “Together, we will triumph against all odds” are crafted to inspire and motivate.

In Literature

Authors use emotional language to create atmosphere and develop characters. Descriptions like “Her heart shattered into a million pieces” rely heavily on emotional words to engage readers.

Tips for Avoiding Overuse of Emotional Language in Writing

While emotional language can be powerful, overusing it may reduce credibility or seem manipulative. Here are some tips for balance:

- **Use emotions strategically:** Reserve emotional language for key points or moments where you want to connect deeply with your audience.
- **Support feelings with facts:** Back emotional appeals with evidence to strengthen your argument.
- **Be authentic:** Use emotional language that genuinely reflects your message to avoid sounding insincere.
- **Vary tone:** Mix neutral and emotional language to create a dynamic and engaging text.

Final Thoughts on Identifying Emotional Language

Being able to identify the sentence that relies on emotional language enriches your reading and writing experiences. It empowers you to become a more discerning reader, a more persuasive communicator, and a more thoughtful thinker. Next time you analyze a text or craft your own, remember to look for those sentences that stir the heart as much as the mind—they are often the most memorable and impactful.

Frequently Asked Questions

What does it mean for a sentence to rely on emotional language?

A sentence that relies on emotional language uses words or phrases designed to evoke strong feelings or emotions rather than presenting objective facts.

How can I identify a sentence that uses emotional language?

Look for words that express feelings, such as happiness, anger, fear, or excitement, and sentences that aim to persuade by appealing to the reader's emotions instead of logical reasoning.

Why is it important to recognize sentences that rely on emotional language?

Recognizing emotional language helps in critical reading and thinking by allowing you to distinguish between objective information and persuasive or biased statements that appeal to emotions.

Can you give an example of a sentence that relies on emotional language?

Sure! An example is: 'The heartbreaking sight of the abandoned puppies will surely move you to donate.' This sentence uses emotional words like 'heartbreaking' and 'move you' to elicit sympathy.

What is the difference between emotional language and factual language in a sentence?

Emotional language appeals to feelings and subjective experiences, while factual language presents information based on objective evidence and data without trying to influence emotions.

In what contexts might sentences that rely on emotional language be commonly found?

Such sentences are commonly found in advertisements, political speeches, persuasive essays, and opinion pieces where the goal is to influence the audience's emotions and opinions.

****How to Identify the Sentence That Relies on Emotional Language: A Professional Analysis****

Identify the sentence that relies on emotional language—this phrase encapsulates a critical skill in both language comprehension and communication analysis. Emotional language, or emotive language, plays a pivotal role in shaping readers' and listeners' perceptions by appealing to their feelings rather than relying solely on objective facts. Understanding how to pinpoint sentences that employ emotional language is essential for professionals working in fields such as journalism, marketing, education, and critical reading. This article offers a thorough examination of how to identify emotionally charged sentences, the significance of emotional language in communication, and its broader implications.

What Constitutes Emotional Language?

Before delving into methods to identify the sentence that relies on emotional language, it is crucial to define what emotional language entails. Emotional language refers to words, phrases, or sentences crafted to

evoke an emotional response—such as happiness, anger, fear, or sympathy—from the audience. Unlike neutral or factual language, which presents information objectively, emotional language deliberately appeals to sentiments to influence attitudes or decisions.

For example, in the sentence, “The heart-wrenching tragedy left thousands devastated,” the phrase “heart-wrenching tragedy” is laden with emotional language designed to provoke empathy and sorrow. Recognizing such constructs is the first step in identifying sentences that rely on emotional language.

Techniques for Identifying Emotionally Charged Sentences

When tasked with identifying the sentence that relies on emotional language within a passage, several analytical strategies prove effective:

1. Look for Subjective Adjectives and Adverbs

Emotional sentences frequently employ subjective adjectives (e.g., “terrible,” “wonderful,” “horrific”) and adverbs (e.g., “tragically,” “joyfully”). These words convey the speaker’s attitude or feelings rather than objective facts. For instance:

- Objective: “The company reported a 5% increase in profits.”
- Emotional: “The company celebrated a remarkable 5% surge in profits.”

The word “remarkable” introduces an emotional tone.

2. Identify Figurative Language and Imagery

Metaphors, similes, and vivid imagery often serve to amplify emotional impact. Sentences that use such literary devices are likely designed to engage the reader’s emotions. For example, “Her smile was a beacon of hope in the darkest hours” uses metaphorical language to evoke feelings of optimism and warmth.

3. Detect Appeals to Values, Beliefs, or Morality

Sentences that appeal to deeply held values or ethical considerations typically engage emotions. These might include words like “justice,” “freedom,” “betrayal,” or “sacrifice.” For example, “It is unjust to deny basic human rights to anyone” uses emotional language by appealing to the reader’s sense of fairness.

4. Notice Exaggeration and Hyperbole

Hyperbolic expressions such as “the worst disaster ever” or “an unforgettable joy” often indicate emotional language. While factual sentences tend to be measured and precise, emotional sentences may exaggerate to elicit stronger feelings.

Why Identifying Emotional Language Matters

Understanding how to identify the sentence that relies on emotional language is not only valuable in academic settings but also in everyday media consumption. Emotional language can influence public opinion, drive marketing campaigns, and shape political discourse. Being able to discern when emotional appeals are used helps readers maintain critical thinking and prevents manipulation through biased or sensationalist content.

For example, news articles sometimes use emotional language to sensationalize stories, increasing reader engagement but potentially compromising objectivity. Similarly, advertisers often rely heavily on emotional language to persuade consumers, tapping into desires, fears, or aspirations.

Emotional Language in Journalism and Media

In journalism, emotional language must be carefully balanced against the need for factual accuracy. Ethical journalism promotes neutrality and avoids allowing emotions to cloud the presentation of facts. However, some journalistic pieces, such as opinion columns or human interest stories, naturally incorporate emotional language to connect with readers.

Identifying sentences that rely on emotional language in news stories can help readers distinguish between factual reporting and subjective commentary. For instance, the sentence “The heartbreaking scenes from the disaster left the community in shock” is emotionally charged, whereas “The disaster affected over 1,000 residents” is factual.

Emotional Language in Marketing and Advertising

Marketing leverages emotional language to prompt buying decisions. Ads frequently employ sentences designed to evoke happiness, nostalgia, fear, or urgency. For example, “Don’t miss out on the chance to transform your life with our revolutionary product!” uses emotional triggers like excitement and opportunity.

Recognizing such sentences helps consumers analyze advertisements critically, reducing impulsive decisions based on emotional manipulation.

Examples and Comparative Analysis

Consider the following sentences extracted from different contexts:

1. "The data shows a 20% increase in productivity this quarter."
2. "This incredible breakthrough will change your life forever."
3. "Thousands mourn the devastating loss caused by the earthquake."
4. "Our survey results indicate a 15% satisfaction rate among users."

Among these, sentence 2 and sentence 3 clearly rely on emotional language. Sentence 2 uses "incredible breakthrough" and "change your life forever" to evoke excitement and optimism. Sentence 3 employs "thousands mourn" and "devastating loss" to stir feelings of sorrow and empathy. Sentences 1 and 4 present factual information without emotional embellishment.

This comparison illustrates how emotional language can be embedded in sentences to influence perception, while others remain neutral and informational.

Features of Sentences Relying on Emotional Language

- Use of positive or negative adjectives and adverbs.
- Incorporation of personal pronouns and direct address to engage the reader.
- Presence of emotionally charged nouns (e.g., "tragedy," "miracle," "failure").
- Use of exclamatory sentences or questions designed to provoke emotional response.
- Inclusion of narratives or anecdotes that evoke empathy or other emotions.

Pros and Cons of Emotional Language in Communication

- **Pros:** Enhances engagement; creates empathy and connection; motivates action and persuasion.
- **Cons:** Can lead to bias or misinformation; may manipulate or exploit emotions; risks overshadowing factual content.

Tools and Strategies to Assist Identification

Modern technology has introduced tools that analyze text for emotional content. Sentiment analysis software, for example, can detect positive, negative, or neutral tones within sentences. These tools use natural language processing algorithms to identify emotionally charged words and phrases, aiding professionals in media monitoring, content creation, and research.

However, human judgment remains crucial because emotional language can be subtle and context-dependent. Combining automated tools with critical reading skills optimizes the identification of sentences relying on emotional language.

Integrating Emotional Language Awareness in Education

Teaching students to identify sentences that rely on emotional language fosters media literacy and critical thinking. Educators encourage learners to:

- Differentiate between fact and opinion.
- Recognize persuasive techniques.
- Analyze the purpose and effect of emotive language.
- Develop balanced interpretations of texts.

Such skills empower individuals to navigate complex information landscapes effectively, particularly in an era of widespread misinformation and emotional appeals across digital platforms.

The ability to identify the sentence that relies on emotional language is an indispensable component of comprehensive language analysis and communication literacy. Whether evaluating news articles, advertisements, or literature, recognizing emotional language equips readers and professionals to understand underlying intents, biases, and influences shaping the narrative.

Identify The Sentence That Relies On Emotional Language

identify the sentence that relies on emotional language: Recent Developments in Intelligent Information and Database Systems Dariusz Król, Lech Madeyski, Ngoc Thanh Nguyen, 2016-03-15 The objective of this book is to contribute to the development of the intelligent information and database systems with the essentials of current knowledge, experience and know-how. The book contains a selection of 40 chapters based on original research presented as posters during the 8th Asian Conference on Intelligent Information and Database Systems (ACIIDS 2016) held on 14-16 March 2016 in Da Nang, Vietnam. The papers to some extent reflect the achievements of scientific teams from 17 countries in five continents. The volume is divided into six parts: (a) Computational Intelligence in Data Mining and Machine Learning, (b) Ontologies, Social

Networks and Recommendation Systems, (c) Web Services, Cloud Computing, Security and Intelligent Internet Systems, (d) Knowledge Management and Language Processing, (e) Image, Video, Motion Analysis and Recognition, and (f) Advanced Computing Applications and Technologies. The book is an excellent resource for researchers, those working in artificial intelligence, multimedia, networks and big data technologies, as well as for students interested in computer science and other related fields.

identify the sentence that relies on emotional language: The Moral Punishment Instinct Jan-Willem van Prooijen, 2018 Why do we universally punish offenders? This book proposes that people possess a moral punish instinct: a hard-wired tendency to aggress against those who violate the norms of their group. This instinct is reflected in how punishment originates from moral emotions, stimulates cooperation, and shapes the social life of human beings.

identify the sentence that relies on emotional language: Language and Emotion.
Volume 1 Gesine Lenore Schiewer, Jeanette Altarriba, Bee Chin Ng, 2022-11-07 The Handbook consists of four major sections. Each section is introduced by a main article: Theories of Emotion – General Aspects Perspectives in Communication Theory, Semiotics, and Linguistics Perspectives on Language and Emotion in Cultural Studies Interdisciplinary and Applied Perspectives The first section presents interdisciplinary emotion theories relevant for the field of language and communication research, including the history of emotion research. The second section focuses on the full range of emotion-related aspects in linguistics, semiotics, and communication theories. The next section focuses on cultural studies and language and emotion; emotions in arts and literature, as well as research on emotion in literary studies; and media and emotion. The final section covers different domains, social practices, and applications, such as society, policy, diplomacy, economics and business communication, religion and emotional language, the domain of affective computing in human-machine interaction, and language and emotion research for language education. Overall, this Handbook represents a comprehensive overview in a rich, diverse compendium never before published in this particular domain.

identify the sentence that relies on emotional language: Academic Writing and Grammar for Students Alex Osmond, 2015-09-26 Grappling with grammar? Struggling with punctuation? Whether you're writing an essay or assignment, report or dissertation, this useful guide shows you how to improve the quality of your work at university – fast – by identifying and using the correct use of English grammar and punctuation in your academic writing. Using tried and tested advice from student workshops, Alex Osmond shares practical examples that illustrate common mistakes, and shows you how to avoid them. You'll also discover guidance on: Writing structure – the what and how of crafting sentences and paragraphs Conciseness – how to express your point succinctly and clearly, showing you understand the topic Effective proofreading – the importance of the final 'tidy up', so your work is ready to hand in Referencing – common systems, and how to reference consistently (and avoid plagiarism). This new edition also includes separate chapters on critical thinking and referencing, exploring each topic in more detail, and learning outcomes in every chapter, so you can identify what new skills you'll take away. The Student Success series are essential guides for students of all levels. From how to think critically and write great essays to planning your dream career, the Student Success series helps you study smarter and get the best from your time at university. Visit the SAGE Study Skills hub for tips and resources for study success!

identify the sentence that relies on emotional language: The Development of Emotional Intelligence Nadja Reissland, 2013-02-28 How do children learn about the expression and meaning of emotions – both happy and sad? This book answers questions regarding the foundation of emotional intelligence, and examines how children become emotionally literate as they are socialised into their family environment from birth to 2 years of age. These early stages are vitally important in teaching children to understand themselves and others, as well as how to relate to people, and how to adapt to and cope with their immediate surroundings. In order to examine the development of emotional intelligence, the author presents an overview of the literature on the subject and in the

second part of the book presents a case study in which the concepts introduced in the first part of the book are revisited. Based on daily tape-recorded 'conversations' between a baby and her father, the data demonstrate how, over a two-year period, the child learns to express and understand emotions within social interactions. This capacity to reason with emotions is examined through four areas: perceiving emotion, integrating emotion, understanding emotion and managing emotion. The Development of Emotional Intelligence adds a new perspective to the theoretical debate on emotions and how they develop. It will be of great interest to psychologists and any professionals dealing with families. It will also be helpful reading for parents.

identify the sentence that relies on emotional language: Technical Challenges and Design Issues in Bangla Language Processing Karim, M. A., Kaykobad, M., Murshed, M., 2013-04-30 Many take advantage of software and hardware accessibility in the English language. However, for non native speakers, this inevitably becomes a problem; specifically for the complex Bangla language which is not easily integrated into the world of technology. Technical Challenges and Design Issues in Bangla Language Processing addresses the difficulties as well as the overwhelming benefits associated with creating programs and devices that are accessible to the speakers of the Bangla language. Professionals, students, and researchers interested in expanding the fields of computing, information and knowledge management, and communication technologies in the non-English realm will benefit from this comprehensive collection of research.

identify the sentence that relies on emotional language: Media Representation of Migrants and Refugees Kir Elitaş, Serpil, 2024-06-17 The global narrative surrounding migrants, refugees, and people on the move is often fraught with biases, misunderstandings, and misrepresentations. While crucial for informing public opinion, media coverage can inadvertently perpetuate stereotypes, fuel discrimination, and distort realities. This leads to a climate where migrants and refugees are often misunderstood, marginalized, and even targeted with hate speech. Such narratives hinder efforts for inclusive societies and contribute to the polarization of public debates on migration. Media Representation of Migrants and Refugees offers a comprehensive solution by bringing together interdisciplinary perspectives to examine and challenge prevailing media narratives critically. By inviting scholars and practitioners from diverse fields such as Social Sciences, Humanities, Media, Communications, and Government, the book aims to provide a nuanced understanding of the complex interplay between media representations and the lived experiences of migrants. This book is a vital resource for academics, researchers, policymakers, and media professionals seeking to understand and address the challenges of media representation in the context of migration.

Chapter 1 : Scoring High on the AP English Language & Composition Exam

About the Book This test-preparation guide provides all the tools you'll need to do well on the Advanced Placement Examination in English Language & Composition. In addition to test-taking techniques and the information required by the test - such as literary definitions and essay structure - you will find complete lessons that teach you the skills demanded by this test. The instructional passages of this book teach you critical reading skills by using material beyond the range of the AP exam. You will be taught by lesson and example how to write high-scoring essays that demonstrate all you have learned. To complement the chapters on critical reading, Chapter 4 focuses on the test itself and prepares you for it specifically. Everything you need to know for the test is encapsulated in this chapter. You will find helpful facts about the AP exam, along with a breakdown of the questions into easily recognizable types. As the time of the test approaches, you will be able to concentrate on this chapter for the most time-efficient preparation. Our book also provides three full-length practice tests. Our exams include thorough explanations of the answers for added instruction and self-diagnosis of problem areas. We also include a glossary of literary terms with 65 entries, all fully defined.

About the Test The Advanced Placement Examination in English Language & Composition is geared toward the student who has studied the mechanics of writing and rhetoric at an advanced level, and wishes to pursue college credit. Take care not to confuse the AP Examination in English Language & Composition with the AP Examination in Literature & Composition. The Literature exam focuses on literature and literary criticism, while the Language exam deals with writing as a craft. This book is designed to help you prepare for the AP Examination in English Language & Composition only. The AP English Language & Composition Exam is divided into two sections: Section 1 - Multiple-Choice (60 minutes - accounts for 45% of total score) Five or six reading passages, with an average of 10 questions each. Section 2 - Free-Response (up to 120 minutes - accounts for 55% of total score) Three essay questions. The first section consists of five or six reading passages and sixty multiple-choice questions, which you will have one hour to complete. Each passage will be followed by an average of ten questions and thereafter the passage will not be referred to again. Do not feel pressured to remember each reading - just digest them one at a time

and move on. After reading the passage, you will have approximately one minute to answer each question. The second section of the AP English Language & Composition Exam consists of three essay questions, and is divided such that you will have forty minutes to write each essay. Do not expect to be able to go back to an essay after the allotted time has elapsed. Note that each essay has very specific instructions, and most have a passage which you will read critically to answer the essay question. Your essays will be scored according to the essay structure, the clarity of your writing, and the extent to which you have answered the question. Scoring the Exam The multiple-choice section of the exam is scored by crediting each correct answer with one point and deducting one-fourth of a point for each incorrect answer. Unanswered questions receive neither a credit nor a deduction. The free-response essays are graded by more than 5,000 instructors and professors who gather together each June for a week of non-stop AP essay grading. Each essay booklet is read and scored by four graders. Each grader provides a score for the individual essays. This score is a number on a scale from 0 to 9, 0 being the lowest and 9 the highest. The graders are not aware of each other's scores. When the essays have been graded four times, the scores are averaged - one score for each of the three essays - so that the free-response section is composed of three scores. The three essays are weighted equally, and the total weight of the free-response section is fifty-five percent of the total score. The multiple-choice section accounts for forty-five percent of the total score. Each year the overall grades may fluctuate because the grading scale depends upon the performance of students in past AP administrations. The following method of scoring, along with the corresponding chart, will give you an approximation of your score. It will not indicate the exact score you would get on the actual AP English Language & Composition Exam

identify the sentence that relies on emotional language: *Perspective Taking in Language* Carla Contemori, Petra Hendriks, Franziska Köder, Emar Maier, Jorrig Vogels, Sonja Zeman, 2023-05-02

identify the sentence that relies on emotional language: Becoming Bestsellers: John Grisham and Danielle Steel (Sample from Chapter 2 of THE BESTSELLER CODE) Jodie Archer, Matthew L. Jockers, 2016-08-16 This sneak peek teaser - featuring literary giants John Grisham and Danielle Steele - from Chapter 2 of *The Bestseller Code*, a groundbreaking book about what a computer algorithm can teach us about blockbuster books, stories, and reading, reveals the importance of topic and theme in bestselling fiction according to percentages assigned by what the authors refer to as the "bestseller-ometer." Although 55,000 novels are published every year, only about 200 hit the lists, a commercial success rate of less than half a percent. When the computer was asked to "blindly" select the most likely bestsellers out of 5,000 books published over the past thirty years based only on theme, it discovered two possible candidates: *The Accident* by Danielle Steel and *The Associate* by John Grisham. The computer recognized quantifiable patterns in their seemingly opposite, but undeniably successful writing careers with legal thrillers and romance. In Chapter 2, Archer and Jockers analyze this data and divulge the most and least likely to best sell topics and themes in fiction with a human discussion of the "why" behind these results. *The Bestseller Code* is a big-idea book about the relationship between creativity and technology. At heart it is a celebration of books for readers and writers—a compelling investigation into how successful writing works.

identify the sentence that relies on emotional language: The Comfort of Strangers Gage McWeeny, 2016-02-01 *The Comfort of Strangers* argues for a new understanding of the relation between literary form and the socially dense environments of modernity. In a period of vast population increase in Britain, literary form imagined and licensed new ways of being with, and getting away from, other people.

identify the sentence that relies on emotional language: Partial Defences to Murder Great Britain. Law Commission, 2004 Following on from an earlier consultation paper by the Law Commission (Consultation paper 173, ISBN 0117302597) published in October 2003, this report makes recommendations on the law and practice of the partial defences to murder of diminished responsibility and provocation, as covered by the Homicide Act 1957, with particular regard to

domestic violence situations. It also considers whether there should be a partial defence to murder in cases involving the use of excessive force in self-defence. Appendices include sections detailing: research into the ways in which the law of provocation and diminished responsibility are working; a brief empirical survey of public opinion relating to partial defences to murder; a synopsis of sample cases of female defendants convicted of murder; and a sociological history of provocation and diminished responsibility.

identify the sentence that relies on emotional language: *Motor Speech Disorders - E-Book* Joseph R. Duffy, 2012-10-01 With expanded and updated information including current techniques, approaches, and case studies, the 3rd edition of this bestselling book continues its reputation as a dependable and outstanding evidence-based source on acquired motor speech disorders in adults. It covers the substrates of motor speech and its disorders, the disorders and their diagnoses, and management -- focusing on integrating what is known about the bases of motor speech disorders with the realities of clinical practice to ensure readers have the key content they need to be effective practitioners. - Three-part organization first covers the neurologic underpinnings of speech, then the various disorders resulting from problems in the nervous system, and then the basic principles and disorder-specific management strategies. - Emphasis on evidence-based practice helps distill disparate information and stresses the best practices within motor speech disorders. - Cutting-edge research ensures this book contains the most comprehensive and up-to-date look at the state of motor speech disorders. - Case studies help clarify dense and difficult content and help hone your critical thinking skills. - Summary tables and boxes offer easy access to important information such as causes and characteristics to aid in differential diagnosis. - Chapter outline and summary sections keep you focused on the most significant information. - NEW! Updated content incorporates Dr. Duffy's findings from nearly 1,000 new articles on motor speech disorders. - UNIQUE! Two-color design and larger trim size help highlight key information and allow for easier lay-flat reading.

Cutting-edge research ensures this book contains the most comprehensive and up-to-date look at the state of motor speech disorders. Case studies help clarify dense and difficult content and help hone your critical thinking skills. Summary tables and boxes offer easy access to important information such as causes and characteristics to aid in differential diagnosis. Chapter outline and summary sections keep you focused on the most significant information. NEW! Accompanying Evolve site features an interactive PowerPoint presentation with more than 60 audio and video clips demonstrating various disorders. NEW! Updated content incorporates Dr. Duffy's findings from nearly 1,000 new articles on motor speech disorders. UNIQUE! Two-color design and larger trim size help highlight key information and allow for easier lay-flat reading.

identify the sentence that relies on emotional language: *The Routledge Companion to Translation Studies* Jeremy Munday, 2009-01-13 Bringing together an international range of leading expert contributors to provide a clear and concise introductory overview to contemporary translation studies.

identify the sentence that relies on emotional language: *Food Tech and Processing Solutions* Ambar Achari, 2025-01-07 Food Tech and Processing Solutions delves into the integration of food science and engineering to enhance food selection, preservation, packaging, and utilization.

This comprehensive guide emphasizes the importance of modern technology in the food processing industry. We provide a rigorous scientific explanation of various food processing methods while highlighting the role of the industry in society. Our book covers the physical properties of food materials, fluid flow, heat and mass transfer principles, reaction kinetics, centrifugation, thermal processing, spoilage prevention, crystallization, dissolution, and refrigeration. Primarily intended as a textbook for college and university courses, the latest edition includes current trends and advancements in the field. We begin with an introduction to the properties of food materials and explore fundamental scientific processes like centrifugation, freezing, and evaporation. Additionally, we focus on food packaging, cleaning, disinfection, and sanitation. This book serves as a detailed guide for students and professionals, offering insights into food processing technology and its applications.

identify the sentence that relies on emotional language: Cognitive Aging and the Federal Circuit Courts PROFESSOR OF POLITICAL SCIENCE RYAN C. OWENS BLACK (PROFESSOR OF POLITICAL SCIENCE RYAN J.), Professor of Political Science Ryan J Owens, Patrick C. Wohlfarth, 2024 Cognitive Aging and the Federal Circuit Courts: How Senescence Influences the Law and Judges considers recent advances in neuroscience to identify the effects of cognitive aging among federal circuit court judges to make timely recommendations about judicial independence and institutional reforms.

identify the sentence that relies on emotional language: Innovative Topologies and Algorithms for Neural Networks Salvatore Graziani, Maria Gabriella Xibilia, 2021-04-01 The introduction of new topologies and training procedures to deep neural networks has solicited a renewed interest in the field of neural computation. The use of deep structures has significantly improved state-of-the-art applications in many fields, such as computer vision, speech and text processing, medical applications, and IoT (Internet of Things). The probability of a successful outcome from a neural network is linked to selection of an appropriate network architecture and training algorithm. Accordingly, much of the recent research on neural networks has been devoted to the study and proposal of novel architectures, including solutions tailored to specific problems. This book gives significant contributions to the above-mentioned fields by merging theoretical aspects and relevant applications.

identify the sentence that relies on emotional language: A Grammar of Late Modern English, for the Use of Continental, Especially Dutch, Students: The parts of speech. Section I. A. Nouns, adjectives and articles. B. Pronouns and numerals. Section II. The verb and the particles Hendrik Poutsma, 1926
