

gene wilder history of the world part 1

Gene Wilder History of the World Part 1: A Hilarious Journey Through Time

gene wilder history of the world part 1 is more than just a film title; it's a comedic gem that showcases the unique talent of Gene Wilder in a wildly entertaining retelling of human history. Released in 1981, this satirical comedy blends absurdity, wit, and Wilder's signature charm to offer a humorous spin on the evolution of civilization. For fans of classic comedy and those curious about Wilder's lesser-known works, this movie is a fascinating piece of cinematic history.

The Origins of Gene Wilder History of the World Part 1

Gene Wilder, already a household name by the late 1970s thanks to iconic roles in films like Willy Wonka & the Chocolate Factory and Blazing Saddles, took a bold step with History of the World Part 1. Directed by Mel Brooks, who also wrote and starred in the film, the movie was intended as a parody of history and historical epics, a genre ripe for comedic exploration.

How the Film Came to Be

The idea for History of the World Part 1 stemmed from Mel Brooks' desire to poke fun at the grandiosity and sometimes pretentiousness of historical films. Gene Wilder was brought on board not only because of his outstanding comedic timing but also due to his established rapport with Brooks. Their collaborative energy was evident from the start, making the production a playground for improvisation and humor.

Wilder's Role and Contribution

In the film, Gene Wilder plays multiple characters but most notably Moses in the “The Ten Commandments” segment, delivering a performance that balances reverence and irreverence with ease. His knack for physical comedy and expressive facial gestures adds layers of humor that elevate the parody beyond simple slapstick.

Exploring the Comedy Style in History of the World Part 1

What sets Gene Wilder's *History of the World Part 1* apart from other comedies of its time is its clever use of satire mixed with slapstick and absurdity. The film doesn't just aim for laughs—it critiques and lampoons the way history is often portrayed on screen.

Satire Meets Historical Parody

The film divides history into several segments, from the Stone Age to the French Revolution. Each segment exaggerates historical events and characters to ridiculous extremes. For example, the “Cave People” scenes poke fun at prehistoric life with anachronistic jokes, while the French Revolution segment is filled with witty dialogue and over-the-top situations.

Gene Wilder's Unique Comedic Touch

Wilder's comedic style is characterized by a blend of vulnerability and manic energy. Unlike many comedians who rely solely on punchlines, Wilder's humor often emerges from his ability to inhabit eccentric characters fully. This depth is especially evident in his portrayal of Moses, where he combines a commanding presence with moments of absurdity that keep the audience laughing and engaged.

Impact and Legacy of Gene Wilder History of the World Part 1

While not as commercially successful as some of Mel Brooks' other works, Gene Wilder's *History of the World Part 1* has maintained a cult following. Its blend of irreverent humor and historical parody has influenced generations of comedians and filmmakers.

Reception and Criticism

At the time of its release, the film received mixed reviews. Some critics felt the humor was too scattered, while others appreciated the cleverness and performances, particularly Wilder's. Over time, audiences have grown to appreciate the film's quirky charm and unique approach to comedy.

Influence on Comedy and Pop Culture

The movie has been referenced and parodied in various media, highlighting its lasting impression. Gene Wilder's role contributed to his legacy as one of the most versatile and beloved comedians of his era. The film also helped pave the way for other historical comedies, proving that history could be a rich source of humor.

Behind the Scenes: Fun Facts About the Film

For fans and trivia enthusiasts, there are several interesting tidbits about Gene Wilder's *History of the World Part 1* that shed light on the filmmaking process and the personalities involved.

- **Improvisation Galore:** Many of Wilder's scenes were partially improvised, showcasing his quick

wit and creativity on set.

- **Collaboration with Mel Brooks:** Wilder and Brooks had a close friendship, which translated into a dynamic and enjoyable working environment.
- **Multiple Roles:** Wilder played several characters, demonstrating his range and commitment to the comedy.
- **Period Costumes and Sets:** Despite the comedic tone, the film invested in authentic-looking costumes and sets to create a believable historical backdrop.

Where to Watch Gene Wilder History of the World Part 1 Today

For those interested in experiencing this classic once again, Gene Wilder's History of the World Part 1 is available on various streaming platforms and DVD collections. Its enduring appeal means it's often included in retrospectives of Mel Brooks' and Gene Wilder's work.

Streaming and Availability

Popular services like Amazon Prime Video, iTunes, and Google Play often have the film available for rent or purchase. Additionally, special edition DVDs sometimes include behind-the-scenes footage and interviews that deepen the appreciation for the film.

Tips for First-Time Viewers

To fully enjoy the film, it helps to have some basic knowledge of the historical periods being parodied, though the humor works well even without it. Watching with friends or family can make the experience even more enjoyable, as the film's fast-paced jokes and visual gags lend themselves to shared laughter.

Gene Wilder's presence in *History of the World Part 1* remains a highlight of his career, showcasing his talent for blending humor with character-driven storytelling. Whether you're a long-time fan or new to his work, exploring this film offers a delightful glimpse into both history and comedy through the eyes of one of the greats.

Frequently Asked Questions

What is 'History of the World, Part 1' about?

'History of the World, Part 1' is a 1981 comedy film co-written, directed by, and starring Mel Brooks that parodies various periods in world history through a series of comedic vignettes.

What role did Gene Wilder play in 'History of the World, Part 1'?

Gene Wilder played the role of Comicus, a stand-up philosopher and the lead character in the 'Roman Empire' segment of the film.

How was Gene Wilder's performance received in 'History of the World, Part 1'?

Gene Wilder's performance was praised for his comedic timing and unique style, contributing significantly to the humor and appeal of the film.

Did Gene Wilder collaborate with Mel Brooks before 'History of the World, Part 1'?

Yes, Gene Wilder had previously worked with Mel Brooks in several films, including 'The Producers' (1967), 'Blazing Saddles' (1974), and 'Young Frankenstein' (1974).

Is 'History of the World, Part 1' a sequel?

No, despite its title, 'History of the World, Part 1' is not a sequel; the 'Part 1' was intended as a humorous touch without a planned follow-up.

What is the significance of Gene Wilder's character Comicus in the film?

Comicus serves as a satirical version of a stand-up comedian in ancient Rome, using humor to comment on social and political issues of the time, showcasing Wilder's sharp comedic skills.

How did 'History of the World, Part 1' contribute to Gene Wilder's career?

The film reinforced Wilder's reputation as a versatile comedic actor capable of delivering memorable performances in both scripted and improvisational comedy settings.

Where can I watch 'History of the World, Part 1' starring Gene Wilder?

'History of the World, Part 1' is available on various streaming platforms and for digital purchase or rental on services like Amazon Prime Video, iTunes, and Google Play.

****Gene Wilder History of the World Part 1: A Cinematic Exploration****

Gene Wilder history of the world part 1 stands as a unique entry in the annals of comedic cinema, blending satire, slapstick, and historical parody into a tapestry that both amuses and provokes thought. Released in 1981, this film marked a notable point in Wilder's career, showcasing his distinctive comedic style and storytelling approach. To understand its impact and place within Wilder's oeuvre, it is essential to delve into the film's background, narrative structure, and its reception in both contemporary and modern contexts.

Genesis and Background of Gene Wilder History of the World

Part 1

Gene Wilder, an actor renowned for his dynamic comedic presence and collaborations with Mel Brooks, took a somewhat different route in **History of the World, Part 1**. Though not the director, Wilder played a pivotal role in bringing this project to life, starring in multiple segments of the film which parodies various periods in human history. The movie itself was directed by Mel Brooks, a frequent collaborator, whose penchant for blending historical satire with broad humor is evident throughout.

The film's title suggests a comprehensive historical account, but it is, in fact, a series of vignettes that lampoon epochs such as the Stone Age, the Roman Empire, the Spanish Inquisition, and the French Revolution. Wilder's performances within these segments highlight his versatility—from the hapless caveman to the eloquent yet bumbling revolutionary.

Context within Gene Wilder's Career

Before **History of the World, Part 1**, Gene Wilder had already cemented his reputation through films like **Willy Wonka & the Chocolate Factory** (1971) and **Young Frankenstein** (1974). These films showcased his ability to mix innocence with a sharp comedic edge. In **History of the World, Part 1**, Wilder extended this repertoire by engaging with historical satire—a genre that requires a balance

between humor and an understanding of historical nuances.

This film allowed Wilder to experiment with multiple characters and comedic styles within a single project, a contrast to his usual lead roles with a more linear narrative. His collaborative chemistry with Mel Brooks was a driving force behind the film's humor and its episodic format.

Structural and Thematic Analysis

History of the World, Part 1 is structured as a patchwork of sketches rather than a traditional narrative film. This format offers both strengths and weaknesses when analyzed from a storytelling perspective.

Sketch Comedy Meets Historical Satire

The episodic format enables the film to cover vast chronological ground, from prehistoric times to the French Revolution, without the constraints of a singular storyline. Each segment is crafted to highlight particular absurdities or stereotypes associated with the respective era. For example, the Stone Age segment humorously addresses evolutionary misunderstandings, while the Roman Empire portion satirizes political corruption and decadence.

Gene Wilder's role in these sketches varies, but his performances consistently provide a thread of wit and charm. His ability to embody different historical personas while maintaining comedic timing is central to the film's appeal.

Thematic Undertones and Social Commentary

Beyond humor, the film subtly critiques human nature and societal structures. The recurring theme of

power misuse—whether by emperors, inquisitors, or revolutionaries—is portrayed with a light touch but incisive insight. Wilder’s characters often serve as the “everyman,” caught in the absurd machinations of those in power, thus inviting the audience to question authority and historical narratives.

Moreover, the film’s use of anachronism and deliberate historical inaccuracies functions as a commentary on how history itself can be distorted or simplified for entertainment or propaganda.

Reception and Legacy

Upon release, **History of the World, Part 1** received mixed reviews from critics, with some praising its comedic inventiveness and others critiquing its uneven pacing and broad humor. Over time, however, the film has garnered a cult following, particularly among fans of Wilder and Brooks.

Critical Perspectives

Critics often highlighted the film’s ambitious attempt to cover a wide historical canvas through comedy. While some sketches stood out for their cleverness—like the Spanish Inquisition segment—others were viewed as less effective or overly reliant on slapstick.

Gene Wilder’s performances were generally lauded, with reviewers noting his ability to elevate the material with nuanced comedic timing. His interplay with other cast members, including Mel Brooks himself, contributed to the film’s dynamic energy.

Modern Reassessment and Fan Appreciation

In the decades since its release, **History of the World, Part 1** has been reexamined as a product of its time, reflecting the comedic sensibilities of the early 1980s. Fans appreciate the film’s willingness to

tackle history with irreverence and creativity. Wilder's contributions are often singled out as highlights, demonstrating his enduring appeal as a comedic actor.

Streaming platforms and DVD reissues have introduced the film to new audiences, further cementing its status within the genre of historical parody.

Key Features and Highlights of Gene Wilder History of the World Part 1

- **Multi-Character Portrayal:** Wilder's ability to play multiple roles showcases his range and adaptability.
- **Collaborative Comedy:** The film benefits from the synergy between Wilder, Brooks, and other comedic talents of the era.
- **Historical Parody:** Each segment cleverly distills complex historical periods into accessible humor.
- **Satirical Edge:** Beneath the laughs lies a critique of power, authority, and human folly.
- **Visual Gags and Slapstick:** Physical comedy complements verbal wit, appealing to a broad audience.

Comparisons to Other Works

When compared to Wilder's earlier ventures, such as **Young Frankenstein**, **History of the World, Part 1** adopts a more fragmented and sketch-like approach, as opposed to a cohesive storyline. This allows for a broader range of comedic exploration but may sacrifice narrative depth.

In the realm of historical satire, the film can be contrasted with Mel Brooks' **Blazing Saddles** (1974), which also combines social commentary with humor but centers on a more focused narrative. Wilder's performances in both films underscore his skill in blending absurdity with subtle emotion.

Challenges and Criticisms

Despite its strengths, **History of the World, Part 1** is not without shortcomings. The film's episodic nature sometimes leads to uneven pacing, with certain sketches feeling rushed or underdeveloped. Additionally, some humor may seem dated or insensitive by contemporary standards, reflecting the evolving nature of comedic taste.

Wilder's multiple roles, while showcasing his versatility, occasionally blur the film's tonal consistency. The rapid shifts between characters and historical periods demand a high level of audience engagement and may not appeal to viewers seeking a traditional narrative.

Nevertheless, these challenges contribute to the film's distinct identity and underline the risks involved in experimental comedy.

History of the World, Part 1 remains an intriguing chapter in Gene Wilder's career and in the broader landscape of comedic film. Its blend of historical satire, sketch comedy, and Wilder's inimitable performance style ensures its place as a noteworthy, if sometimes polarizing, work in the genre. For enthusiasts of Wilder's craft and those interested in the interplay between history and humor, the film offers both entertainment and a lens through which to examine the art of parody.

gene wilder history of the world part 1: The Sacred Art of Joking James Cary, 2019-01-17
'An elegant treatise on how [the church] could lighten up its image.' The Times 'Having worked for many years at the coalface of comedy, sorting the dross from the combustible, James Cary is uniquely qualified to write this book.' Milton Jones, comedian and panellist on BBC2's Mock the Week Every few weeks a politician, pundit or soap star causes a media storm by making a gaffe or tweeting a joke that some people do not find funny. Comedy is very hard to get right and yet we think it's important to have a sense of humour and not take yourself too seriously. On the other hand, a sense of humour failure can lead to losing your friends, your twitter account, your job, your career and, in some cases, your life. James Cary knows about this. He is a sitcom writer who's written jokes about bomb disposal in Afghanistan (Bluestone 42), defended comments about Islam by Ben Elton on Newsnight, been on a panel with radical Muslim cleric Anjem Choudary, sits on the General Synod of the Church of England and somehow managed to co-write episodes of Miranda. An odd mix, but one that makes him very readable. This entertaining, breezy book, explains how comedy works (with jokes and quotes) and gives much-needed insights into the controversy surrounding humour.

gene wilder history of the world part 1: The Evolution of the Western Martin Kich, 2024-09-05 Explore the enduring influence of the Western – the quintessential American film genre – and its essential role in US and world culture. Follow the entire history of the Western, from its roots in the pulp novels of the early 20th century, through the serials of the silent era and the mid-century classics of John Ford and John Wayne, to the recent award-winning revisionist works, like Unforgiven and No Country for Old Men, that provide a more complex and nuanced take on history of the West. Perhaps more than any other pop culture genre, the Western allows us to view how Americans have seen themselves over the last 150 years. Build a foundational understanding of the genre with 5 introductory essays, exploring the development of the Western Mythos in the traditional Western, the heyday of the traditional Western in the post-WWII period, revisionist Westerns and the counterculture, race and identity, and the Western outside of the USA. Close to 100 encyclopedia entries examine one or more movies or television programs and show how their creation and plots demonstrate the overall evolution of the genre. Easily compare films and TV programs – from early genre favorites such as Gunsmoke to more recent releases like Django Unchained – with essential facts boxes accompanying each entry, with information on the director, studio, key actors, and box office receipts.

gene wilder history of the world part 1: Encyclopedia of Jewish American Popular Culture Jack Fischel, 2008-12-30 This unique encyclopedia chronicles American Jewish popular culture, past and present in music, art, food, religion, literature, and more. Over 150 entries, written by scholars in the field, highlight topics ranging from animation and comics to Hollywood and pop psychology. Without the profound contributions of American Jews, the popular culture we know today would not exist. Where would music be without the music of Bob Dylan and Barbra Streisand, humor without Judd Apatow and Jerry Seinfeld, film without Steven Spielberg, literature without Phillip Roth, Broadway without Rodgers and Hammerstein? These are just a few of the artists who broke new ground and changed the face of American popular culture forever. This unique encyclopedia chronicles American Jewish popular culture, past and present in music, art, food, religion, literature, and more. Over 150 entries, written by scholars in the field, highlight topics ranging from animation and comics to Hollywood and pop psychology. Up-to-date coverage and extensive attention to political and social contexts make this encyclopedia is an excellent resource for high school and college students interested in the full range of Jewish popular culture in the United States. Academic and public libraries will also treasure this work as an incomparable guide to our nation's heritage. Illustrations complement the text throughout, and many entries cite works for further reading. The volume closes with a selected, general bibliography of print and electronic

gene wilder history of the world part 1: What's That From? Jai Nanda, 2025-09-23 Do you know what films have given us the following quotes? What we have here is a failure to communicate. Excuse me while I whip this out. Would somebody get this walking carpet out of my way? I don't know why they call this stuff Hamburger Helper, it does just fine by itself. And how are you at movie trivia? In The Blues Brothers why are Jake and Elwood puttin' the band back together? In Airplane!, which dinner was poisoned: the fish or the chicken? True or False: Diane Keaton won the Academy Award for Best Actress for her performance in Annie Hall. For the movie buff and video hound, Jai Nanda's What's that From? provides hours of entertainment. You can test your knowledge with more than 1,000 quotes and questions from more than 250 contemporary films--from Academy Award winners to cult classics. Also included are bonus questions on actors and directors, special categories on individual actors, movies, and themes (Western, baseball, sequels), plus a section devoted exclusively to Academy Award-winning performances. It's all here in the ultimate tribute to the great movies of the seventies, eighties, and nineties from National Lampoon's Animal House to When Harry Met Sally... So the next time you hear someone say, It's just a flesh wound, you won't have to ask What's that from?

gene wilder history of the world part 1: American Musical Theatre Gerald Martin Bordman, Richard Norton, 2010 Hailed as absolutely the best reference book on its subject by Newsweek, American Musical Theatre: A Chronicle covers more than 250 years of musical theatre in the United States, from a 1735 South Carolina production of Flora, or Hob in the Well to The Addams Family in 2010. Authors Gerald Bordman and Richard Norton write an engaging narrative blending history, critical analysis, and lively description to illustrate the transformation of American musical theatre through such incarnations as the ballad opera, revue, Golden Age musical, rock musical, Disney musical, and, with 2010's American Idiot, even the punk musical. The Chronicle is arranged chronologically and is fully indexed according to names of shows, songs, and people involved, for easy searching and browsing. Chapters range from the Prologue, which traces the origins of American musical theater to 1866, through several intermissions (for instance, Broadway's Response to the Swing Era, 1937-1942) and up to Act Seven, the theatre of the twenty-first century. This last chapter covers the dramatic changes in musical theatre since the last edition published - whereas Fosse, a choreography-heavy revue, won the 1999 Tony for Best Musical, the 2008 award went to In the Heights, which combines hip-hop, rap, meringue and salsa unlike any musical before it. Other groundbreaking and/or box-office-breaking shows covered for the first time include Avenue Q, The Producers, Billy Elliot, Jersey Boys, Monty Python's Spamalot, Wicked, Hairspray, Urinetown the Musical, and Spring Awakening. Discussion of these shows incorporates plot synopses, names of principal players, descriptions of scenery and costumes, and critical reactions. In addition, short biographies interspersed throughout the text colorfully depict the creative minds that shaped the most influential musicals. Collectively, these elements create the most comprehensive, authoritative history of musical theatre in this country and make this an essential resource for students, scholars, performers, dramaturges, and musical enthusiasts.

gene wilder history of the world part 1: Bartlett's Familiar Quotations Geoffrey O'Brien, 2022-10-25 From ancient Egypt to today, enjoy a sweeping survey of world history through its most memorable words in this completely revised and updated nineteenth edition. More than 150 years after its initial publication, Bartlett's Familiar Quotations now enters its nineteenth edition. First compiled by John Bartlett, a bookseller in Cambridge, Massachusetts, as a commonplace book of only 258 pages, the original 1855 edition mainly featured selections from the Bible, Shakespeare, and the great English poets. Today, Bartlett's includes more than 20,000 quotes from roughly 4,000 contributors. Spanning centuries of thought and culture, it remains the finest and most popular compendium of quotations ever assembled. While continuing to draw on timeless classical

references, this edition also incorporates more than 3,000 new quotes from more than 700 new sources, including Alison Bechdel, Ta-Nehisi Coates, Pope Francis, Atul Gawande, Ruth Bader Ginsburg, Hilary Mantel, Lin-Manuel Miranda, Claudia Rankine, Fred Rogers, Bernie Sanders, Patti Smith, and Malala Yousafzai. Bartlett's showcases the thoughts not only of renowned figures from the arts, literature, politics, science, sports, and business, but also of otherwise unknown individuals whose thought-provoking ideas have moved, unsettled, or inspired readers and listeners throughout the ages. Bartlett's makes searching for the perfect quote easy in three ways: alphabetically by author, chronologically by the author's birth date, or thematically by subject. Whether one is searching for appropriate remarks for a celebration, comforting thoughts for a serious occasion, or simply to answer the question "Who said that?" Bartlett's offers readers and scholars alike a stunning treasury of words that have influenced

gene wilder history of the world part 1: The New Yale Book of Quotations Fred R. Shapiro, 2021-08-31 A revised, enlarged, and updated edition of this authoritative and entertaining reference book—named the #2 essential home library reference book by the Wall Street Journal "Shapiro does original research, earning [this] volume a place on the quotation shelf next to Bartlett's and Oxford's."—William Safire, New York Times Magazine (on the original edition) "The most accurate, thorough, and up-to-date quotation book ever compiled."—Bryan A. Garner, Los Angeles Review of Books Updated to include more than a thousand new quotations, this reader-friendly volume contains over twelve thousand famous quotations, arranged alphabetically by author and sourced from literature, history, popular culture, sports, digital culture, science, politics, law, the social sciences, and all other aspects of human activity. Contemporaries added to this edition include Beyoncé, Sandra Cisneros, James Comey, Drake, Louise Glück, LeBron James, Brett Kavanaugh, Lady Gaga, Lin-Manuel Miranda, Barack Obama, John Oliver, Nancy Pelosi, Vladimir Putin, Bernie Sanders, Donald Trump, and David Foster Wallace. The volume also reflects path-breaking recent research resulting in the updating of quotations from the first edition with more accurate wording or attribution. It has also incorporated noncontemporary quotations that have become relevant to the present day. In addition, The New Yale Book of Quotations reveals the striking fact that women originated many familiar quotations, yet their roles have been forgotten and their verbal inventions have often been credited to prominent men instead. This book's quotations, annotations, extensive cross-references, and large keyword index will satisfy both the reader who seeks specific information and the curious browser who appreciates an amble through entertaining pages.

gene wilder history of the world part 1: Leonard Maltin's Movie Encyclopedia Leonard Maltin, 1994 Maltin's long-awaited comprehensive Who's Who of Hollywood is entertaining and informative as only Maltin can make it. A must reference for any moviegoer's bookshelf--and the perfect companion to his bestselling Movie and Video Guide. Satellite TV tour.

SCP2 Gene - GeneCards | SCP2 Protein | SCP2 Antibody This gene encodes two proteins: sterol carrier protein X (SCPx) and sterol carrier protein 2 (SCP2), as a result of transcription initiation from 2 independently regulated promoters

MAP4K4 Gene - GeneCards | M4K4 Protein | M4K4 Antibody Complete information for MAP4K4 gene (Protein Coding), Mitogen-Activated Protein Kinase Kinase Kinase Kinase 4, including: function, proteins, disorders, pathways,

VHL Gene - GeneCards | VHL Protein | VHL Antibody Complete information for VHL gene (Protein Coding), Von Hippel-Lindau Tumor Suppressor, including: function, proteins, disorders, pathways, orthologs, and expression

SLC12A3 Gene - GeneCards | S12A3 Protein | S12A3 Antibody This gene encodes a renal

thiazide-sensitive sodium-chloride cotransporter that is important for electrolyte homeostasis. This cotransporter mediates sodium and chloride

TFEB Gene - GeneCards | TFEB Protein | TFEB Antibody TFEB (Transcription Factor EB) is a Protein Coding gene. Diseases associated with TFEB include Renal Cell Carcinoma With Mit Translocations and Pycnodysostosis

COL4A1 Gene - GeneCards | CO4A1 Protein | CO4A1 Antibody Complete information for COL4A1 gene (Protein Coding), Collagen Type IV Alpha 1 Chain, including: function, proteins, disorders, pathways, orthologs, and expression

CCL5 Gene - GeneCards | CCL5 Protein | CCL5 Antibody CCL5 (C-C Motif Chemokine Ligand 5) is a Protein Coding gene. Diseases associated with CCL5 include Human Immunodeficiency Virus Type 1 and Periapical Granuloma

CTLA4 Gene - GeneCards | CTLA4 Protein | CTLA4 Antibody This gene is a member of the immunoglobulin superfamily and encodes a protein which transmits an inhibitory signal to T cells. The protein contains a V domain, a

DMD Gene - GeneCards | DMD Protein | DMD Antibody The DMD gene is the largest known gene in humans. It is 2.4 million base-pairs in size, comprises 79 exons and takes over 16 hours to be transcribed and cotranscriptionally

GeneCards - Human Genes | Gene Database | Gene Search The knowledgebase automatically integrates gene-centric data from ~200 web sources, including genomic, transcriptomic, proteomic, genetic, clinical and functional information

SCP2 Gene - GeneCards | SCP2 Protein | SCP2 Antibody This gene encodes two proteins: sterol carrier protein X (SCPx) and sterol carrier protein 2 (SCP2), as a result of transcription initiation from 2 independently regulated promoters

MAP4K4 Gene - GeneCards | M4K4 Protein | M4K4 Antibody Complete information for MAP4K4 gene (Protein Coding), Mitogen-Activated Protein Kinase Kinase Kinase Kinase 4, including: function, proteins, disorders, pathways,

VHL Gene - GeneCards | VHL Protein | VHL Antibody Complete information for VHL gene (Protein Coding), Von Hippel-Lindau Tumor Suppressor, including: function, proteins, disorders, pathways, orthologs, and expression

SLC12A3 Gene - GeneCards | S12A3 Protein | S12A3 Antibody This gene encodes a renal thiazide-sensitive sodium-chloride cotransporter that is important for electrolyte homeostasis. This cotransporter mediates sodium and chloride

TFEB Gene - GeneCards | TFEB Protein | TFEB Antibody TFEB (Transcription Factor EB) is a Protein Coding gene. Diseases associated with TFEB include Renal Cell Carcinoma With Mit Translocations and Pycnodysostosis

COL4A1 Gene - GeneCards | CO4A1 Protein | CO4A1 Antibody Complete information for COL4A1 gene (Protein Coding), Collagen Type IV Alpha 1 Chain, including: function, proteins, disorders, pathways, orthologs, and expression

CCL5 Gene - GeneCards | CCL5 Protein | CCL5 Antibody CCL5 (C-C Motif Chemokine Ligand 5) is a Protein Coding gene. Diseases associated with CCL5 include Human Immunodeficiency Virus Type 1 and Periapical Granuloma

CTLA4 Gene - GeneCards | CTLA4 Protein | CTLA4 Antibody This gene is a member of the immunoglobulin superfamily and encodes a protein which transmits an inhibitory signal to T cells. The protein contains a V domain, a

DMD Gene - GeneCards | DMD Protein | DMD Antibody The DMD gene is the largest known gene in humans. It is 2.4 million base-pairs in size, comprises 79 exons and takes over 16 hours to be transcribed and cotranscriptionally

GeneCards - Human Genes | Gene Database | Gene Search The knowledgebase automatically integrates gene-centric data from ~200 web sources, including genomic, transcriptomic, proteomic, genetic, clinical and functional information

SCP2 Gene - GeneCards | SCP2 Protein | SCP2 Antibody This gene encodes two proteins:

sterol carrier protein X (SCPx) and sterol carrier protein 2 (SCP2), as a result of transcription initiation from 2 independently regulated promoters

MAP4K4 Gene - GeneCards | M4K4 Protein | M4K4 Antibody Complete information for MAP4K4 gene (Protein Coding), Mitogen-Activated Protein Kinase Kinase Kinase Kinase 4, including: function, proteins, disorders, pathways,

VHL Gene - GeneCards | VHL Protein | VHL Antibody Complete information for VHL gene (Protein Coding), Von Hippel-Lindau Tumor Suppressor, including: function, proteins, disorders, pathways, orthologs, and expression

SLC12A3 Gene - GeneCards | S12A3 Protein | S12A3 Antibody This gene encodes a renal thiazide-sensitive sodium-chloride cotransporter that is important for electrolyte homeostasis. This cotransporter mediates sodium and chloride

TFEB Gene - GeneCards | TFEB Protein | TFEB Antibody TFEB (Transcription Factor EB) is a Protein Coding gene. Diseases associated with TFEB include Renal Cell Carcinoma With Mit Translocations and Pycnodysostosis

COL4A1 Gene - GeneCards | CO4A1 Protein | CO4A1 Antibody Complete information for COL4A1 gene (Protein Coding), Collagen Type IV Alpha 1 Chain, including: function, proteins, disorders, pathways, orthologs, and expression

CCL5 Gene - GeneCards | CCL5 Protein | CCL5 Antibody CCL5 (C-C Motif Chemokine Ligand 5) is a Protein Coding gene. Diseases associated with CCL5 include Human Immunodeficiency Virus Type 1 and Periapical Granuloma

CTLA4 Gene - GeneCards | CTLA4 Protein | CTLA4 Antibody This gene is a member of the immunoglobulin superfamily and encodes a protein which transmits an inhibitory signal to T cells. The protein contains a V domain, a

DMD Gene - GeneCards | DMD Protein | DMD Antibody The DMD gene is the largest known gene in humans. It is 2.4 million base-pairs in size, comprises 79 exons and takes over 16 hours to be transcribed and cotranscriptionally

GeneCards - Human Genes | Gene Database | Gene Search The knowledgebase automatically integrates gene-centric data from ~200 web sources, including genomic, transcriptomic, proteomic, genetic, clinical and functional information

SCP2 Gene - GeneCards | SCP2 Protein | SCP2 Antibody This gene encodes two proteins: sterol carrier protein X (SCPx) and sterol carrier protein 2 (SCP2), as a result of transcription initiation from 2 independently regulated promoters

MAP4K4 Gene - GeneCards | M4K4 Protein | M4K4 Antibody Complete information for MAP4K4 gene (Protein Coding), Mitogen-Activated Protein Kinase Kinase Kinase Kinase 4, including: function, proteins, disorders, pathways,

VHL Gene - GeneCards | VHL Protein | VHL Antibody Complete information for VHL gene (Protein Coding), Von Hippel-Lindau Tumor Suppressor, including: function, proteins, disorders, pathways, orthologs, and expression

SLC12A3 Gene - GeneCards | S12A3 Protein | S12A3 Antibody This gene encodes a renal thiazide-sensitive sodium-chloride cotransporter that is important for electrolyte homeostasis. This cotransporter mediates sodium and chloride

TFEB Gene - GeneCards | TFEB Protein | TFEB Antibody TFEB (Transcription Factor EB) is a Protein Coding gene. Diseases associated with TFEB include Renal Cell Carcinoma With Mit Translocations and Pycnodysostosis

COL4A1 Gene - GeneCards | CO4A1 Protein | CO4A1 Antibody Complete information for COL4A1 gene (Protein Coding), Collagen Type IV Alpha 1 Chain, including: function, proteins, disorders, pathways, orthologs, and expression

CCL5 Gene - GeneCards | CCL5 Protein | CCL5 Antibody CCL5 (C-C Motif Chemokine Ligand 5) is a Protein Coding gene. Diseases associated with CCL5 include Human Immunodeficiency Virus Type 1 and Periapical Granuloma

CTLA4 Gene - GeneCards | CTLA4 Protein | CTLA4 Antibody This gene is a member of the

immunoglobulin superfamily and encodes a protein which transmits an inhibitory signal to T cells. The protein contains a V domain, a

DMD Gene - GeneCards | DMD Protein | DMD Antibody The DMD gene is the largest known gene in humans. It is 2.4 million base-pairs in size, comprises 79 exons and takes over 16 hours to be transcribed and cotranscriptionally
