ps i love you novel: *The Epistolary Renaissance* Maria Löschnigg, Rebekka Schuh, 2018-09-10 Since the late twentieth century, letters in literature have seen a remarkable renaissance. The prominence of letters in recent fiction is due in part to the rediscovery, by contemporary writers, of letters as an effective tool for rendering aspects of historicity, liminality, marginalization and the expression of subjectivity vis-à-vis an 'other'; it is also due, however, to the artistically challenging inclusion of the new electronic media of communication into fiction. While studies of epistolary fiction have so far concentrated on the eighteenth century and on thematic concerns, this volume charts the epistolary renaissance in recent literature, entering new territory by also focusing on the aesthetic implications of the epistolary mode. In particular, the essays in this volume illuminate the potential of the epistolary (including digital forms) for rendering contemporary sensitivities. The volume thus offers a comprehensive assessment of letter narratives in contemporary literature. Through its focus on the aesthetic and structural aspects of new epistolary fiction, the inclusion of various narrative forms, and the consideration of both conventional letters and their new digital kindred, *The Epistolary Renaissance* offers novel insight into a multi-faceted (re)new(ed) genre.

ps i love you novel: Reading Paul Howard Eugene O'Brien, 2023-12-22 Reading Paul Howard: The Art of Ross O'Carroll Kelly offers a thorough examination of narrative devices, satirical modes, cultural context and humour in Howard's texts. The volume argues that his academic critical neglect is due to a classic bifurcation in Irish Studies between high and popular culture, and it will use the thought of Pierre Bourdieu, Sigmund Freud, Mikhail Bakhtin and Jacques Derrida to critique

this division, building a theoretical platform from which to examine the significance of Howard's work as an Irish comic and satirical writer. Addressing both the style and the substance of his work, this text locates him in a tradition of Irish satirical writing that dates back to the Gaelic bards, and it includes writers like Swift, Wilde, Flann O'Brien and Joyce. Through textual and contextual analysis, this book makes the case for Howard as a significant and original voice in Irish writing, whose fusion of the three traditional types of satire (Horatian, Juvenalian and Menippean) has created a parallel Ireland that shines a satirical light on its real counterpart. As Freud suggests, humour is a way of accessing aspects of the psyche that normative discourses cannot enunciate, and Howard, through the confessional voice of Ross, offers a fictive truth on 20 years of Irish society, a truth that is not accessed by discourse in the public sphere or by what could be termed literary or high cultural fiction.

ps i love you novel: Becoming a Woman Through Romance Linda K. Christian-Smith, 2019-10-01 A woman is incomplete without a man, motherhood is a woman's destiny, and a woman's place is in the home. These conservative political themes are woven throughout teen romance fiction's sagas of hearts and flowers. Using the theory and interpretive methods of feminism and cultural studies, Christian-Smith explores the contradictory role that popular culture plays in constructing gender, class, race, age and sexual meanings. Originally published in 1990, *Becoming a Woman through Romance* combines close textual analyses of thirty-four teen romance novels (written in the United States from 1942-1982) with a school study in three midwestern American schools. Christian-Smith situates teen romance fiction within the rapidly changing publishing industry and the important political and economic changes in the United States surrounding the rise of the New Right. By analysing the structure of the novels in terms of the themes of romance, sexuality and beautification, and the Good/Bad and Strong/Weak dichotomies, she demonstrates how each has shaped the novels' versions of femininity over forty years. She also shows that although romance fiction is presented as a universal model, it is actually an expression of white middle class gender ideology and tension within this class. This highly readable, comprehensive and coherent work was the first to combine in one volume three vital areas of cultural studies research: the political

economy of publishing, textual analysis, and a study of readers. The first full-scale study of teen romance fiction, *Becoming a Woman through Romance* establishes the importance of the study of popular culture forms found in school for understanding the process of school materials in identity formation.
