Step-by-Step Riddle School Transfer Walkthrough

Here's a detailed guide to help you move through the game smoothly, covering each major puzzle and challenge you'll face.

Starting Out: The Classroom Puzzle

The game usually begins with Phil trapped or confined in a classroom. Your goal is to figure out how to get out. Look around for items such as pencils, erasers, or any papers you can pick up.

- Check under desks and chairs.
- Interact with the teacher or other students if possible.
- Use collected items to unlock doors or distract NPCs.

For example, you might need to use a pencil to press a button hidden in the desk or throw an eraser to distract the teacher momentarily.

Unlocking the Hallway Door

Once out of the classroom, the next challenge is often a locked hallway door. This puzzle usually requires a combination of items or solving a mini-puzzle.

- Look for notes or keys in adjacent rooms.
- Try using collected objects on the door or nearby panels.
- Sometimes, you'll need to trigger an event by talking to other students or causing a distraction.

This part of the game emphasizes exploration and interaction, so don't hesitate to experiment with different combinations.

Interacting with Characters for Clues

In Riddle School Transfer, characters aren't just background—they're essential to the story and puzzle solutions. Engaging in conversations can unlock new pathways or provide hints.

- Talk to every character multiple times.
- Pay attention to their reactions and the information they share.
- Occasionally, characters might give you items or suggest where to look next.

Remember, some puzzles require indirect actions, like convincing a student to move or retrieve something for you.

Solving the Computer Terminal Puzzle

One of the more technical challenges involves using a computer terminal to unlock doors or access information. This puzzle can vary but generally involves:

- Finding a password or code hidden somewhere in the school.
- Experimenting with different inputs or commands.
- Timing your actions correctly to avoid detection.

If you're stuck, retracing your steps to previous rooms or notes can often lead to the password you need.

Escaping Through the Secret Passages

The climax of many Riddle School games features escaping the school via secret passages or hidden exits.

- Look for clues like loose bricks, vents, or suspicious wall panels.
- Use items such as screwdrivers or crowbars to open hidden doors.
