is a darkly whimsical tale of women daring to live and create with impunity. Twin sisters Clara and Dempsey have always struggled to relate, their familial bond severed after their mother vanished into the Thames. As infants they were adopted into different families, Clara sent to live with a successful, upper-class couple, and Dempsey with a sullen, unaffectionate city councilor. In adulthood, they are content to be all but estranged, until Clara sees a woman who looks exactly like their mother on the streets of London. The catch: this version of Serene, aged not a day, has enjoyed a childless life—the very life, it seems, she might have had if the girls had never been born. As with most things, Clara and Dempsey cannot see eye to eye on the confounding appearance of this woman. Clara, a celebrity author with a penchant for excessive drinking and one-night stands, is all too willing to welcome the confident and temperamental Serene into her home. But cloistered Dempsey, who makes a modest living doing menial data entry work from the confines of her apartment, is dubious of the whole situation, believing this all to be the insidious ruse of a con woman. Clashing over this stranger who burrows deeper and deeper into their lives, the sisters hurtle toward an altercation that threatens their very existence, forcing them to finally confront their pasts—together. In her riveting first foray into fiction, Yrsa Daley-Ward conjures a kaleidoscopic multiverse of daughterhood and mother-want, exploring the sacrifices that women must make for self-actualization. The result is a marvel of a debut novel that boldly asks, “How can it ever, ever be a crime to choose yourself?”

bone yrsa daley ward: *Story Work* GG Renee Hill, 2025-11-04 A guide to understanding the stories we tell ourselves and the actions needed to reclaim power over our narrative. We absorb the world around us through stories. It's how we make sense of our surroundings, our communities, and ourselves. There's often truth and validity in these stories. But the stories we tell ourselves are not an end-all, be-all. Instead, they're all part of a larger, ongoing, unfinished narrative--one that we must continually refresh, expand, and contemplate to stay soft and open-hearted. Here's the thing: we can choose to keep these stories open to possibility and imagination--or we can choose to keep them closed. That's where *Story Work* comes in. Through essays and prompting questions, GG Renee Hill invites readers to breathe new life into the stories we carry. She leads by example, by penning the raw material of her own life: an upbringing raised by a mother with schizophrenia, and a lifetime of internal and external forces trying to minimize that impact. It was a long, old, heavy story Hill silently carried with her--the powerless girl who lost her voice in the wreckage of her mother's condition -- until she turned to writing and began to change the meaning she'd assigned to her experiences. And she doesn't stop there. Hill invites readers to the transformative practice of creative self-discovery through storytelling -- treating our life experiences as creative material that we have the power to shape. For the person searching, *Story Work* is the answer that enables us to live with an open-hearted curiosity--one that both fuels and grounds us.

A glorious portrayal of the richness and range of African women's voices, this major international book brings together their achievements across a wealth of genres. From Antigua to Zimbabwe and Angola to the USA, overlooked artists of the past join key figures, popular contemporaries and emerging writers in paying tribute to the heritage that unites them, the strong links that endure from generation to generation, and their common obstacles around issues of race, gender and class. Bold and insightful, brilliant in its intimacy and universality, this landmark anthology honours the talents of African daughters and the inspiring legacy that connects them-and all of us. bone yrsa daley ward: Afropäische Ästhetiken Jeannette Oholi, 2024-08-02 Schwarze Menschen, ihre Geschichten, Erfahrungen und Künste sind seit Jahrzehnten, wenn nicht gar Jahrhunderten, Teil Europas. Doch warum bekommen Schwarze Autor*innen in den Literaturwissenschaften immer noch nur wenig Aufmerksamkeit? Jeannette Oholi rückt in ihrem Buch erstmalig Schwarze europäische Literatur des 21. Jahrhunderts in den Fokus. Sie argumentiert gattungsübergreifend, dass in literarischen Texten aus Deutschland, Frankreich und England das dominante Narrativ eines weißen ›Europäischseins‹ durch plurale Schwarze Identitätsentwürfe unterwandert wird. Dabei wird deutlich: Die pluralen afropäischen Ästhetiken, die in den literarischen Texten produziert werden, zeichnen sich durch Bewegungen, Verbindungen und Uneindeutigkeiten aus und entziehen sich somit einer verengten Lesart.
