me 200 past exams: *A Life with History* John Morton Blum, 2004 The author of such classic works as *The Republican Roosevelt*, *V Was for Victory*, and *Years of Discord*, John Morton Blum is one of a small group of intellectuals who for more than a quarter of a century dominated the writing of American political history. Writing now of his own career, Blum provides a behind-the-scenes look at Ivy League education and political power from the 1940s to the 1980s. Blum insightfully recounts a long and distinguished journey that began at Phillips Academy, where he first realized he could make a career of teaching and writing history. He tells how young men were socialized to the values of the Northeastern establishment in those years before World War II, and how as a non-practicing Jew he learned to overcome bigotry both at Andover and at Harvard, which then had no Jewish professors. In 1957 Blum joined the faculty of Yale University's history department, widely regarded as the nation's best, where he became both influential and popular and where his students included one future U.S. president as well as others who aspired to the office. He reveals much about the inner workings of Ivy League education and tells of controversies over the Vietnam War and the Black Panthers, his role in Eugene McCarthy's presidential campaign, and how he searched for common ground between reactionary faculty and radical students. More than a recounting of a singular life, Blum's story explains how political history was researched and written during the second half of the twentieth century, describing how the discipline evolved, gained ascendancy, and was challenged as historical fashions changed. It also offers revealing glimpses of such prominent academics as Kingman Brewster, Arthur Schlesinger, Jr., C. Vann Woodward, and William Sloan Coffin. Over a distinguished career, Blum witnessed considerable change in elite educational institutions, where minorities and women were grossly underrepresented when he first entered academia. In a memoir brimming with insight and laced with humor, he looks back at the academy—not a refuge from reality but an alternative reality—as he reflects upon his intellectual journey and his contributions to the study and writing of twentieth-century American history.

me 200 past exams: Unrequited Time James McCurrach, 2011-10 James C. McCurrach was born in Brooklyn, New York and was the namesake of a self made business success story. He had a privileged upbringing that included a succession of private schools culminating in a B.A. from Brown University in Providence, R.I. He traveled a circuitous route as an adult - a journey that included tennis, a Vice Presidency at the former Bankers Trust Company in New York City as well as the principal in a New York restaurant. After many personal hurdles, he finally succeeded in his original goal of a teaching career. Additionally, his work assisting foreign students in the English language resulted in the publication of two English textbooks for English beginners in Japan and Korea. He is a former squash racquets champion with numerous top ten rankings in various age categories. He resides in San Francisco with his partner of 29 years. This Memoir is dedicated to P. Justin Jacobs for his loyalty, support and continuing encouragement. A troubled youth in search of direction finds himself groping to find his place despite numerous obstacles centering about his Father looking for a duplicate. Such are some of the problems facing James C. McCurrach Jr. as he passes through his early childhood years and the social upheavals encountered on the path to a new century. All of this is complicated by his growing uncertainty of his sexual proclivities at a time when homosexuality was ridiculed and considered a deviancy beyond the pale. At the same time, his Fathers' influence was a constant presence that would lead to a series of disasters, both socially and financially. Despite trying to throw off his Father's yoke, there remained a continuing need to please him and establish some sort of positive approval resulting in a series of tumultuous relationships and career moves. His Mom had always told the youngster that he would be a late bloomer and indeed that prediction would come to pass as in his later years the teaching profession would provide the purpose and rewards that had long eluded him.
