castle in the air epub: **Encounters: The Creation of New Zealand** Paul Moon, 2013-07-24 'Throughout its human history, New Zealand has been interpreted and experienced in often radically different ways. Each wave of arrivals to its shores has left its own set of views of New Zealand on the country – applying a new coat of mythology and understanding to the landscape, usually without fully removing the one that lies beneath it.' *Encounters* is the wide-ranging, audacious and gripping story of New Zealand's changing national identity, how it has emerged and evolved through generations. In this genre-busting book, historian Paul Moon delves into how the many and conflicting ideas about New Zealand came into being. Along the way, he explores forgotten crevices of the nation's character, and exposes some of the mythology of its past and present. These include, for example, the earliest Maori myths and the 'mock sacredness' of the All Blacks in the twenty-first century; the role of nostalgia in our national character, both Maori and Pakeha; whether the explorer Kupe existed; the appeal of the Speight's 'Southern Man'; and ruminations on New Zealand art and landscape. What results is an absorbing piece of scholarship, an imaginative and exuberant epic that will challenge preconceptions about what it means to be a New Zealander, and how our country is understood. Lyrical, breathtaking and provocative, and illustrated with artworks

throughout, Encounters offers an extraordinary insight into the beginnings of our country.

castle in the air epub: *The Battle of Itter Castle, 1945* Stephen Wynn, 2024-05-30 The Battle of Itter Castle was undoubtedly one of the strangest events of the Second World War, being one of only two occasions during the war in which Americans and Germans fought side by side. The castle was seized by the Nazis on 7 February 1943, on the direct orders of Heinrich Himmler, and in just ten weeks was changed into a five-star prison for a number of high-ranking French dignitaries, both civilian and military. In the final days of the war, in May 1945, with the castle's German guards having deserted their posts and an attack by SS units imminent, those inside the castle realised they needed help. Having sent out two men to try to make contact with American forces, it was then a case of sit and wait, not knowing if they had been successful in their task or had been captured and killed by the SS. Help eventually arrived in the shape of United States Army Captain John C. Jack Lee, his tank and a handful of men, along with German Wehrmacht officer Major Josef Sepp Gangl, and some of his men. Although happy that their 'prayers' had been answered and help had arrived, the French dignitaries could not hide their disappointment at such a small force of rescuers. The subsequent battle started early on the morning of Saturday, 5 May, and continued until mid-afternoon when a larger American force arrived and defeated the remaining SS forces. The victory came at a price for Major Gangl, who was the only one of the defenders to lose his life in the fighting.

castle in the air epub: **The Samurai Castle Master** Chris Glenn, 2023-01-05 When the samurai warlord and respected castle architect Todo Takatora died in 1630, the funeral attendants responsible for preparing his body were shocked to note that there was not a single part of his body

not scarred or disfigured by sword, spear, glaive or matchlock gun wound. Todo Takatora lived a life that unfolds like a drama. Born to a small landholding samurai family, the maverick youth worked his way to the top, becoming one of the most successful of daimyo warlords. He had served on the front lines of some of the most violent of battles, turning points that forged the nation. In a land and time in which loyalty was held dear, he changed his allegiances a record seven times, serving a record ten lords, more than any other samurai in history. Because of this, he has long been held in contempt by the Japanese. Standing 6 feet tall in a time when the average Japanese man stood between 5 and 5 1/2 feet, Todo Takatora was a giant among men. He died aged 74, when the normal life span was around 50. He was also the finest, most innovative of castle architects, responsible for the design and construction of over 30 of the strongest, most innovative Japanese castles and structures, and influencing samurai castle construction across Japan. In explaining his life, his reasons for having served so many lords, his achievements in battle and in castle design, his political and personal ideals and how these attributes were shaped during the course of his adventurous life, this book will reveal the man, and show why Takatora deserves the epithet of National Hero. In this fascinating biography, the first ever published in the English language, Chris Glenn explores Todo Takatora's remarkable, and influential, life, the battles he fought in, the political intrigues he was part of, as well as detailing the magnificent castles he built.

covers everything from hillforts to aircraft carriers and includes the castles, battle sites, ships and aircraft that have witnessed the changing character of warfare. castle in the air epub: Welsh Castle Builders John Marshall, 2022-12-02 The Edwardian castles of north Wales were built by a Savoyard master mason, but also by many other artisans from Savoy. What is more extraordinary, is that the constables of Flint, Rhuddlan, Conwy and Harlech were also Savoyards, the Justiciar and Deputy Justiciar at Caernarfon were Savoyards and the head of the English army leading the relief of the sieges of Flint and Rhuddlan was a future Count of Savoy. The explanatory story is fundamentally of two men, the builder of castles, Master James of St George and Justiciar Sir Othon de Grandson, and the relationship of these two men with King Edward I. But it is also the story of many others, a story that begins with the marriage of Alianor de Provence to Edward's father, Henry III, and the influx of her kinsmen to England, such as Pierre de Savoie. It is impossible to understand the development of the castles in north Wales without an understanding of the Savoyards, where they came from and their impact on English and Welsh history. The defining work of Arnold Taylor in exploring the Savoyard history of Welsh castles is now many years past, and mostly out of print, it is time for the story to be revisited and expanded upon, in the light of new evidence.
