When Tom Breihan launched his Stereogum column in early 2018, "The Number Ones"—a space in which he has been writing about every #1 hit in the history of the Billboard Hot 100, in chronological order—he figured he'd post capsule-size reviews for each song. But there was so much more to uncover. The column has taken on a life of its own, sparking online debate and occasional death threats. The Billboard Hot 100 began in 1958, and after four years of posting the column, Breihan is still in the early aughts.
