enrique y maria answer key: *Decentralization and Subnational Politics in Latin America* Tulia G. Falleti, 2010-04-12 Is it always true that decentralization reforms put more power in the hands of governors and mayors? In post-developmental Latin America, the surprising answer to this question is no. In fact, a variety of outcomes are possible, depending largely on who initiates the reforms, how they are initiated, and in what order they are introduced. Tulia G. Falleti draws on extensive fieldwork, in-depth interviews, archival records, and quantitative data to explain the trajectories of decentralization processes and their markedly different outcomes in Argentina, Brazil, Colombia, and Mexico. In her analysis, she develops a sequential theory and method that are successful in explaining this counterintuitive result. Her research contributes to the literature on path dependence and institutional evolution and will be of interest to scholars of decentralization, federalism, subnational politics, intergovernmental relations, and Latin American politics.

enrique y maria answer key: *La filosofía y el amor* Paredes Martín, María del Carmen, Bonete Perales, Enrique, 2020-11-15 Castellano): El amor es uno de los temas emblemáticos que han estado presentes en las más diversas manifestaciones culturales como expresión del modo de ser y de las formas de vida humana que en su misma entraña aspiran a su mejor realización a través de un anhelo compartido y realizado con otros y entre otros. La presencia del amor en la filosofía es tan antigua como el mismo desarrollo del pensamiento humano y de las ideas que lo van perfilando a través del tiempo. Ciertamente, no es posible reducir esta presencia a la filosofía occidental, aunque es inevitable constatar que las fuentes de nuestra cultura se nutren principalmente de ella. Por ello, en la cultura helénica encontramos el origen más genuino de la nuestra y en su desarrollo aparece una multiplicidad de reflexiones en torno al amor, que forman parte de la historia intelectual de todos los tiempos. Desde entonces hasta nuestros días, la historia del pensamiento, con su sincronía y diacronía, opera tanto sobre el fecundo suelo de la especulación teórica como sobre el hondo interés que encierra toda pregunta, filosófica o no, sobre el amor y su peculiar manera de salir al encuentro del ser humano.
