never fall down patricia mccormick: Never Fall Down Patricia McCormick, 2024-04-16 This National Book Award nominee from two-time finalist Patricia McCormick is the unforgettable story of Arn Chorn-Pond, who defied the odds to survive the Cambodian genocide of 1975-1979 and the labor camps of the Khmer Rouge. Based on the true story of Cambodian advocate Arn Chorn-Pond, and authentically told from his point of view as a young boy, this is an achingly raw and powerful historical novel about a child of war who becomes a man of peace. It includes an author's note and acknowledgments from Arn Chorn-Pond himself. When soldiers arrive in his hometown, Arn is just a normal little boy. But after the soldiers march the entire population into the countryside, his life is changed forever. Arn is separated from his family and assigned to a labor camp: working in the rice paddies under a blazing sun, he sees the other children dying before his eyes. One day, the soldiers ask if any of the kids can play an instrument. Arn's never played a note in his life, but he volunteers. This decision will save his life, but it will pull him into the very center of what we know today as the Killing Fields. And just as the country is about to be liberated, Arn is handed a gun and forced to become a soldier. Supports the Common Core State Standards.

never fall down patricia mccormick: Masquerades of War Christine Sylvester, 2015-05-22 This collection explores the concepts and practices of masquerade as they apply to concepts and practices of war. The contributors insist that masquerades are everyday aspects of the politics, praxis, and experiences of war, while also discovering that finding masquerades and tracing how they work with war is hardly simple. With a range of theories, innovative methodologies, and contextual binoculars, masquerade emerges as a layered and complex phenomenon. It can appear as state deception, lie, or camouflage, as in the population-centric American warfare in Iraq that was sold as good for the local people, or the hidden violence Russian military forces used on each other and on local men in Chechnya. Masquerade can also be part of a people's war logic as exemplified by

the Maoist movement in India. Yet masquerade can also be understood as a normal social mask that people don to foreground an identity or belief from one's cluttered repertoire in order to gain agency. Elements of masquerade can appear in texts that proclaim seemingly unequivocal positions while simultaneously yet subtly suggesting opposing positions. Masquerades of all kinds also seem ubiquitous in fieldwork research and in resistance movements in war zones. Perhaps masquerade, though, is ultimately the denial of death lurking behind the clarion call of security, a call that bolsters war by making militarized policing normal to secure populations from terrorists. These interpretations and others comprise *Masquerades of War*. This book will be of much interest to students of critical war studies, critical security, conflict studies and IR in general.

never fall down patricia mccormick: *Representing the Exotic and the Familiar* Meenakshi Bharat, Madhu Grover, 2019-11-28 The multicultural world of today is often said to be marked by a certain kind of exoticization: a "fetishizing process", as Graham Huggan has called it, which separates a "first world" from a "third world", the Occident from the Orient. The essays collected here re-assess this tendency, not least by focusing on the kinds of intellectual tourism and dilettantism to which it has given rise. The wider context of these analyses is a postcolonial scenario where literatures and languages can move from the "exotic" to the comparatively "familiar" space of contemporary writings; where an exotic mythos can live on into the familiar present; and where

certain perceptions and representations of peoples, of literatures, and of languages have turned exoticization and familiarization into global modes of mass-cultural consumption. Especially by exploring the liminalities between different cultures, this collection manages to trace both the history and the politics of exoticist representation and, in so doing, to make a significant critical intervention.

Displacement, relocation, dissociation: each of these terms elicits images of mass migration, homelessness, statelessness, or outsidership of many kinds, too numerous to name. This book aims to create opportunities for scholars, practitioners, and silenced voices to share theories and stories of progressive and transgressive music pedagogies that challenge the ways music educators and learners think about and practice their arts relative to displacement. Displacement is defined as encompassing all those who have been forced away from their locations by political, social, economic, climate, and resource change, injustice, and insecurity. This includes: - refugees and internally displaced persons; - forced migrants; - indigenous communities who have been forced off their traditional lands; - people who have fled homes because of their gender identity and sexual orientation; - imprisoned individuals; - persons who seek refuge for reasons of domestic and social violence; - homeless persons and others who live in transient spaces; - the disabled, who are relocated involuntarily; and - the culturally dispossessed, whose languages and heritage have been taken away from them. In the context of the first ever book on displacement and music education, the authors connect displacement to what music might become to those peoples who find themselves between spaces, parted from the familiar and the familial. Through, in, and because of a variety of musical participations, they contend that displaced peoples might find comfort, inclusion, and welcome of some kinds either in making new music or remembering and reconfiguring past musical experiences. never fall down patricia mccormick: *Interrogating the Perpetrator* Cathy J Schlund-Vials, Samuel Martínez, 2018-02-02 Set adjacent to victims and bystanders, perpetrators are by no means marginalized figures in human rights scholarship. Nevertheless, the extent to which the perpetrator is not only socially imagined but also sociologically constructed remains a central concern in studies of state-authorized mass violence. This interdisciplinary collection of essays builds upon such work by strategically interrogating the terms through which such a figure is read via law, society, and culture. Of particular concern to the contributors to this volume are the ways in which notions of violation and culpability are mediated through less direct, convoluted frames of corporatization, globalization, militarized humanitarianism, post-conflict truth and justice processes, and postcoloniality. The chapters variously give scrutiny to historical memory (who can voice it, when and in what registers), question legalism's dominance within human rights, and analyse the story-telling values invested in the figure of the perpetrator. Against the common tendency to view perpetrators as either monsters or puppets — driven by evil or controlled by others — the chapters in this book are united by the themes of truth's contingency and complex imaginings of perpetrators. Even as the truth that emerges from perpetrator testimony may depend on who is listening, with what attitude and in what institutional context, the book's chapters also affirm that listening to perpetrators may be every bit as productive of human rights insights as it has been to listen to survivors and witnesses. This book was previously published as a special issue of the *International Journal of Human Rights*.

Part activist memoir, part crash course in Jewish and Palestinian history, *Genocide Bad* dismantles Zionist propaganda in ten unapologetic essays. Drawing connections between Biblical promises and exploding pagers, medieval dress codes and modern-day apartheid, Kern sketches a sweeping history of imperialism with their characteristic blend of far-ranging research, pop-culture insights, and scathing humor. Kern, a former teacher, journalist, novelist, and book influencer, gained international recognition as an anti-Zionist Jewish activist in the days after October 7th, 2023. At a time when social media was flooded with "I Stand with Israel" posts, Kern started sharing content encouraging their followers to read Palestinian books, learn Palestinian history, and question Western reporting on Palestine—videos which went viral into tens of millions of views. Despite facing hate messages, death threats, and exile from the Zionist Jewish community, Kern has

remained steadfast in their advocacy over the past year. They've posted daily videos on Palestinian, Jewish, and colonial history, and they've raised over \$500,000 in direct aid for families in Gaza—all while navigating the challenges of pregnancy, childbirth, and parenting a newborn. In *Genocide Bad*, Kern reflects on the life experiences that led them to anti-Zionist activism, while capturing and expanding upon their online educational content. Kern doesn't flinch when confronting the horrors of genocides past and present, but there is also tremendous hope contained in these pages—hope that springs from examples of courage and resilience in the face of extreme violence, and from the kinds of resistance that might just lead to our collective liberation.
