larry schweikart

****48 Liberal Lies About American History Larry Schweikart: Unpacking the Controversy****

48 liberal lies about american history larry schweikart is a phrase that has stirred considerable discussion among historians, political commentators, and readers interested in American history. Larry Schweikart, a well-known historian and author, has delved into the contentious debates surrounding how American history is taught, especially from conservative perspectives. His work, particularly the book titled **48 Liberal Lies About American History**, challenges many commonly accepted narratives and offers an alternative view grounded in his interpretation of historical facts.

In this article, we will explore the core arguments presented by Schweikart, analyze the nature of these so-called "liberal lies," and provide insight into why this topic remains a hotbed of debate. Whether you're a history buff, a student, or just curious about the ideological battles over America's past, this discussion will shed light on the complexities of interpreting history in a politically charged environment.

Understanding the Premise of 48 Liberal Lies About American History Larry Schweikart

Larry Schweikart's book, **48 Liberal Lies About American History**, aims to confront and debunk what he perceives as myths perpetuated by liberal historians and educators. Schweikart argues that many narratives widely taught in schools and popular media present a distorted, overly negative view of America's past, often downplaying the nation's achievements and virtues.

What Are These "Liberal Lies"?

The "lies" Schweikart refers to encompass a range of historical interpretations, including the portrayal of the Founding Fathers, the causes and consequences of the Civil War, the motivations behind the American Revolution, and the overall role of the United States in global history. Schweikart contends that some liberal perspectives emphasize guilt and victimhood, focusing heavily on issues like racism, imperialism, and economic exploitation, sometimes at the expense of a balanced, nuanced understanding.

For example, Schweikart challenges the idea that the United States was founded on racist principles, arguing instead that the Founding Fathers laid the groundwork for liberty and justice, despite the imperfections of their

time. He also disputes the claim that America was primarily an imperialist power from its inception, highlighting periods of expansion that were often defensive or economically motivated.

Key Themes Explored in Schweikart's Critique

To get a clearer picture of what Schweikart is addressing, it's worth looking at some recurring themes in his critique of liberal historical narratives.

The Founding Fathers and the Constitution

One of Schweikart's primary targets is the portrayal of America's Founding Fathers. In many liberal narratives, figures like Thomas Jefferson, George Washington, and James Madison are criticized for their participation in slavery or for their political motives. Schweikart argues that while these individuals were not perfect, their ideas and actions laid the foundation for one of the most successful democratic experiments in history.

He emphasizes the Constitution as a living document designed to promote freedom and justice, highlighting its innovative checks and balances system. Schweikart's challenge is to encourage readers to see these historical figures in context rather than through a solely critical modern lens.

Slavery and Race Relations

The history of slavery and race relations is undoubtedly one of the most sensitive and debated topics in American history. Schweikart acknowledges the atrocities of slavery but disputes the notion that America was founded solely on racial oppression. He points out the complexities of historical context and argues that progress has been made over time through legislation, social movements, and evolving public consciousness.

Schweikart addresses the idea that liberal historians sometimes paint a picture of continuous systemic racism that has gone unchallenged, suggesting instead that many Americans fought against these injustices throughout history.

The Civil War and Reconstruction

Schweikart also tackles liberal interpretations of the Civil War and Reconstruction era. While many liberal historians emphasize the war as a moral crusade to end slavery, Schweikart highlights the economic, political, and social factors that contributed to the conflict. He argues that focusing

exclusively on slavery oversimplifies a complex event.

Moreover, Schweikart critiques how Reconstruction is often framed as a lost opportunity due to white supremacist opposition, offering a more nuanced analysis of the challenges faced during this turbulent period.

Why Does 48 Liberal Lies About American History Larry Schweikart Matter?

This book and its ideas matter because history shapes identity, policy, and education. The way history is taught influences how citizens understand their country and its role in the world. Schweikart's work invites readers to question dominant narratives and think critically about sources, bias, and interpretation.

The Importance of Historical Accuracy and Balance

One of the core messages behind Schweikart's critique is the need for historical accuracy and balance. History is complex, and reducing it to simple moral binaries can obscure important truths. For educators, students, and readers, engaging with multiple perspectives is crucial to forming a well-rounded understanding.

By addressing what he calls "liberal lies," Schweikart encourages skepticism toward overly politicized or ideologically motivated versions of history. His approach is a reminder that history should be an evolving conversation, not a dogmatic script.

Impact on Education and Textbook Content

The debate over how American history is portrayed is not just academic; it has real-world implications for school curricula and textbooks. Schweikart's book has been cited in discussions about educational reform and curriculum standards, particularly in states and districts where conservative voices push back against what they see as left-leaning interpretations dominating classrooms.

This controversy reflects broader cultural battles over patriotism, identity, and the role of government in education. Whether one agrees with Schweikart's conclusions or not, his work underscores the importance of critically evaluating educational materials to ensure they represent a diversity of viewpoints.

Criticism and Support: The Debate Around Schweikart's Work

As with any politically charged subject, Schweikart's **48 Liberal Lies About American History** has attracted both strong support and vigorous criticism.

Supporters Praise Its Challenge to the Status Quo

Supporters appreciate Schweikart's willingness to challenge popular narratives they view as one-sided or unfairly negative. Many conservatives and traditionalists see the book as a refreshing corrective that restores pride in American achievements and highlights the nation's enduring principles.

They argue that Schweikart's work encourages critical thinking and provides an alternative lens through which to view American history, emphasizing individual liberty, economic growth, and constitutional governance.

Critics Argue It Oversimplifies Complex Issues

On the other hand, critics claim that Schweikart's approach downplays the very real injustices and systemic problems that have shaped American history. Some historians argue that labeling opposing views as "lies" is unproductive and that history requires acknowledging uncomfortable truths alongside achievements.

Critics also warn against the dangers of revisionism that might sanitize history or ignore marginalized voices. They emphasize the importance of recognizing how power dynamics and oppression have influenced the nation's development.

Exploring Related Topics and Keywords

For those interested in diving deeper, exploring related topics can enrich understanding of this ongoing debate:

- American history revisionism
- Conservative vs. liberal perspectives on history
- Debates over teaching history in schools

- Founding Fathers' legacy
- Slavery and emancipation in America
- Reconstruction era complexities
- Patriotism and historical interpretation
- Historiography of the United States

These subjects provide broader context for why Schweikart's **48 liberal lies about american history larry schweikart** remains a relevant and provocative topic.

Engaging With History: Tips for Readers and Students

Whether you are reading Schweikart's book or exploring American history from other perspectives, here are some tips to navigate this complex field:

1. **Seek Multiple Sources:** Don't rely on a single book or viewpoint. Reading diverse authors helps paint a fuller picture.
2. **Understand Context:** Place historical events and figures in their time to avoid anachronistic judgments.
3. **Question Bias:** Recognize that all histories have some bias—identify it and adjust your understanding accordingly.
4. **Engage in Discussion:** Talk with others who have different perspectives to challenge your assumptions.
5. **Focus on Critical Thinking:** Use history to develop your analytical skills, not just to confirm existing beliefs.

By approaching American history with curiosity and openness, readers can appreciate the richness and complexity that Schweikart's work both challenges and contributes to.

The discussion surrounding **48 liberal lies about american history larry schweikart** highlights the ongoing tension between different interpretations of the past. Whether one agrees with Schweikart's critiques or not, his work

underscores the powerful role history plays in shaping national identity and political discourse. Understanding these debates encourages us all to think more deeply about how the stories we tell about America influence our present and future.

Frequently Asked Questions

What is the main focus of Larry Schweikart's book '48 Liberal Lies About American History'?

The book aims to challenge and debunk what Larry Schweikart identifies as 48 common misconceptions or falsehoods about American history that he believes are propagated by liberal perspectives.

Who is Larry Schweikart, the author of '48 Liberal Lies About American History'?

Larry Schweikart is an American historian and author known for his conservative viewpoints and works on American history and politics.

What types of historical topics does '48 Liberal Lies About American History' cover?

The book covers a wide range of topics including the American Revolution, the Founding Fathers, slavery, the Civil War, and U.S. foreign policy, aiming to provide alternative interpretations to mainstream liberal narratives.

How has '48 Liberal Lies About American History' been received by critics and readers?

The book has received mixed reviews, with supporters praising it for challenging prevailing narratives, while critics argue that it presents a biased and selective interpretation of history.

Does Larry Schweikart provide sources and evidence in '48 Liberal Lies About American History'?

Yes, Schweikart includes references and sources throughout the book to support his arguments, though some scholars question the interpretation and selection of those sources.

Is '48 Liberal Lies About American History' intended

for academic audiences or general readers?

Where can I purchase or read '48 Liberal Lies About American History' by Larry Schweikart?

The book is available for purchase through major book retailers such as Amazon, Barnes & Noble, and other online bookstores, as well as in some public and university libraries.

Additional Resources

48 Liberal Lies About American History Larry Schweikart: An Investigative Review

48 liberal lies about american history larry schweikart is a phrase that has gained traction in certain political and academic circles, particularly among those interested in the ongoing debates over American history's interpretation. Larry Schweikart, a historian and author, is best known for his book titled **48 Liberal Lies About American History**, co-written with Michael Allen. The book aims to challenge what the authors perceive as prevalent myths promulgated by liberal historians regarding key events, figures, and themes in the United States' past. This article offers an analytical review of the book's claims, its impact on historiography, and the broader discourse surrounding American history education.

Contextualizing the Claims of 48 Liberal Lies About American History Larry Schweikart

Larry Schweikart's **48 Liberal Lies About American History** is positioned as a corrective to what he and his co-author consider a left-leaning bias in mainstream historical narratives. The book covers a wide range of topics, from the founding of the nation to contemporary political and social issues. It asserts that many accepted stories—particularly those highlighting systemic racism, economic exploitation, and the motives of America's founding figures—are either exaggerated or outright false.

This work is part of a broader conservative reaction to what some see as a revisionist history that undermines national pride and distorts foundational truths. The book's approach is both polemical and scholarly, combining historical data with pointed critiques of liberal historiography. Understanding this dynamic is essential to appreciate both the appeal and the controversy surrounding Schweikart's arguments.

The Core Arguments Presented by Schweikart

The central thesis of **48 Liberal Lies About American History** is that liberal historians have systematically misrepresented American history to advance a progressive political agenda. Schweikart identifies specific “lies” or myths, such as the narrative that the United States was founded exclusively for white male interests, that the American Revolution was primarily motivated by economic greed, or that capitalism inherently oppressed the working class.

Among the notable claims are:

- The Founding Fathers were primarily motivated by a desire to create a free and just society, contrary to assertions that they were elitist oppressors.
- Slavery, while a grave injustice, was not unique to America and was addressed progressively through constitutional and legislative means.
- The American economy has historically been a driver of opportunity and innovation, rather than systemic exploitation.
- Movements like the Civil Rights era and women’s suffrage have been portrayed accurately but sometimes exaggerated to fit contemporary political narratives.

These points are backed by selective use of historical documents, economic data, and biographical accounts, aimed at reframing debates about American exceptionalism and identity.

Analyzing the Historical Accuracy and Scholarly Reception

When evaluating **48 Liberal Lies About American History Larry Schweikart** presents, it is crucial to approach the book with a balanced lens. Critics argue that, while the book serves as a counterbalance to some left-leaning interpretations, it often oversimplifies complex historical realities or omits critical context.

Strengths of Schweikart’s Approach

- **Accessibility:** The book’s clear language and structured format make it

accessible to a broad audience, facilitating engagement with complex historical issues.

- **Challenge to Prevailing Narratives:** By questioning accepted versions of history, Schweikart encourages readers to think critically about sources and perspectives.
- **Use of Data and Primary Sources:** Schweikart's inclusion of economic and political data, alongside letters and speeches, provides tangible evidence for his claims.

Criticisms and Limitations

- **Selective Interpretation:** Some historians contend that Schweikart selectively presents facts that support his thesis while downplaying contradictory evidence.
- **Political Bias:** The framing of "liberal lies" suggests an adversarial stance that may hinder objective analysis.
- **Contextual Oversights:** Complex social and cultural dynamics, especially those concerning race, gender, and class, are sometimes simplified.

The scholarly community remains divided on the book's contributions. While it sparks renewed debate, many caution against accepting its claims uncritically, emphasizing the importance of nuanced, multi-perspective historical interpretation.

The Role of 48 Liberal Lies About American History Larry Schweikart in Contemporary Education

The influence of Schweikart's work extends beyond academia into K-12 and higher education debates about curriculum content. Discussions about the teaching of American history have become increasingly politicized, with advocates on both sides citing works like **48 Liberal Lies About American History** to support their positions.

Impact on Curriculum Debates

Schweikart's book has been used to argue for a more patriotic and "balanced" approach to history education, emphasizing achievements and positive narratives that critics say have been overshadowed by a focus on injustices and systemic problems. Some educators and policymakers see this as a necessary corrective to what they view as an overly critical portrayal of the nation's past.

Conversely, opponents of this approach warn that minimizing or denying historical wrongs undermines efforts toward social justice and reconciliation. They argue that acknowledging complex and uncomfortable truths is essential for a complete understanding of American history.

Public Reception and Media Coverage

Media responses to Schweikart's book have varied widely. Conservative outlets often praise it as a courageous exposé of liberal revisionism, while mainstream and progressive media critique it for ideological distortion. This polarized reception reflects broader cultural conflicts over history's role in shaping national identity.

Comparative Perspectives: Schweikart's Narrative Versus Other Historical Interpretations

In order to fully grasp the significance of **48 Liberal Lies About American History* Larry Schweikart* presents, it is instructive to compare his narrative with other well-known interpretations of American history.

Liberal and Progressive Histories

Liberal historians frequently emphasize themes such as systemic inequality, oppression of marginalized groups, and the ongoing struggle for civil rights and social justice. These perspectives often frame American history as a series of contradictions between the nation's ideals and its realities.

Conservative and Traditionalist Histories

In contrast, conservative historians like Schweikart highlight themes of liberty, individualism, economic opportunity, and patriotism. They tend to

focus on the achievements of the founding generation and the progress made through constitutional governance and economic development.

Middle Ground and Revisionist Approaches

Some historians advocate for a synthesis that recognizes both the nation's accomplishments and its failings. This balanced approach seeks to present history as a dynamic interplay of diverse experiences and evolving values, avoiding reductionist narratives.

Conclusion: The Ongoing Debate Over American History's Narrative

**48 Liberal Lies About American History* Larry Schweikart* presents a provocative critique of what it considers liberal distortions in the telling of America's past. Its influence on public discourse and education debates underscores the enduring contest over historical memory and national identity. While the book offers valuable insights challenging certain common assumptions, it also raises important questions about the responsibilities of historians to present complex truths without ideological bias.

The dialogue sparked by Schweikart's work reflects the broader challenge facing historians, educators, and citizens alike: how to reconcile diverse perspectives into a coherent understanding of American history that honors both achievements and struggles. In this light, **48 Liberal Lies About American History** is less an endpoint and more a catalyst for ongoing critical exploration.

48 liberal lies about american history larry schweikart: *48 Liberal Lies About American History* Larry Schweikart, 2008-09-04 A historian debunks four-dozen PC myths about our nation's past. Over the last forty years, history textbooks have become more and more politically correct and distorted about our country's past, argues professor Larry Schweikart. The result, he says, is that students graduate from high school and even college with twisted beliefs about economics, foreign policy, war, religion, race relations, and many other subjects. As he did in his popular *A Patriot's History of the United States*, Professor Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted books by name and debunks forty-eight common myths. A sample:

- The founders wanted to create a wall of separation between church and state
- Lincoln issued the Emancipation Proclamation only because he needed black soldiers
- Truman ordered the bombing of Hiroshima to intimidate the Soviets with atomic diplomacy
- Mikhail Gorbachev, not Ronald Reagan, was responsible for ending the Cold War

America's past, though not perfect, is far more admirable than you were probably taught.

48 liberal lies about american history larry schweikart: 48 Liberal Lies about American History Larry Schweikart, 2008 As he did in his popular *A Patriot's History of the United States*, Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted books by name and debunks 48 common myths.

48 liberal lies about american history larry schweikart: 48 Liberal Lies about American History Larry Schweikart, 2008

48 liberal lies about american history larry schweikart: A Patriot's History of the United States Larry Schweikart, Michael Allen, 2014-11-25 Revised and updated, this 15th anniversary edition of the #1 New York Times bestseller salutes America's true and proud history. Fifteen years ago, Professors Larry Schweikart and Michael Allen set out to correct the doctrinaire biases that had distorted the way America's past is taught - and they succeeded. *A Patriot's History of the United States* is the definitive objective history of our country, presented honestly and fairly. Schweikart and Allen don't ignore America's mistakes through the years. Instead, they put them back in the proper perspective, celebrating the strengths of the men and women who cleared the wilderness, abolished slavery, and rid the world of fascism and communism. Now in this revised fifteenth-anniversary edition, a new generation of readers will learn the truth about America's discovery, founding, and advancement, from Columbus's voyage to Trump's promise to "Make America Great Again."

48 liberal lies about american history larry schweikart: Patriot's History® of the Modern World, Vol. II Larry Schweikart, Dave Dougherty, 2013-12-05 The bestselling historians turn their focus to America's role in the world since the end of World War II Schweikart, author of the number one New York Times bestseller *A Patriot's History of the United States*, and Dougherty take a critical look at America, from the postwar boom to her search for identity in the twenty-first century. The second volume of *A Patriot's History of the Modern World* picks up in 1945 with a world irrevocably altered by World War II and a powerful, victorious United States. But new foes and challenges soon arose: the growing sphere of Communist influence, hostile dictatorships and unreliable socialist allies, the emergence of China as an economic contender, and the threat of world Islamification. The book reestablishes the argument of American exceptionalism and the interplay of our democratic pillars—Judeo-Christian religious beliefs, free market capitalism, land ownership, and common law—around the world. Schweikart and Dougherty offer a fascinating conservative history of the last six decades.

48 liberal lies about american history larry schweikart: A Patriot's History® of the Modern World, Vol. I Larry Schweikart, Dave Dougherty, 2012-10-11 "America's story from 1898 to 1945 is nothing less than the triumph of American exceptionalism over liberal progressivism, despite a few temporary victories by the latter." Conservative historian Larry Schweikart has won wide acclaim for his number one New York Times bestseller, *A Patriot's History of the United States*. It proved that, contrary to the liberal biases in countless other history books, America had not really been founded on racism, sexism, greed, and oppression. Schweikart and coauthor Michael Allen restored the truly great achievements of America's patriots, founders, and heroes to their rightful place of honor. Now Schweikart and coauthor Dave Dougherty are back with a new perspective on America's half-century rise to the center of the world stage. This all-new volume corrects many of the biases that cloud the way people view the Treaty of Versailles, the Roaring Twenties, the Crash of 1929, the deployment of the atomic bomb, and other critical events in global history. Beginning with the Spanish-American War—which introduced the United States as a global military power that could no longer be ignored—and continuing through the end of World War II, this book shows how a free, capitalist nation could thrive when put face-to-face with tyrannical and socialist powers. Schweikart and Dougherty narrate the many times America proved its dominance by upholding the principles on which it was founded—and struggled on the rare occasions when it strayed from those principles. The authors make a convincing case that America has constantly been a force for good in the world, improving standards of living, introducing innovations, guaranteeing liberty, and offering opportunities to those who had none elsewhere. They also illustrate how the country ascended to

superpower status at the same time it was figuring out its own identity. While American ideals were defeating tyrants abroad, a constant struggle against progressivism was being waged at home, leading to the stumbles of the Great Depression, the New Deal, and the attack on Pearl Harbor. Despite this rocky entrance on the world stage, it was during this half century that the world came to embrace all things American, from its innovations and businesses to its political system and popular culture. The United States began to define what the rest of the world could emulate as the new global ideal. A Patriot's History of the Modern World provides a new perspective on our extraordinary past—and offers lessons we can apply to preserve American exceptionalism today and tomorrow.

48 liberal lies about american history larry schweikart: What Would the Founders Say?

Larry Schweikart, 2011-03-08 The #1 New York Times bestselling coauthor of A Patriot's History of the United States examines ten current challenges. America is at a crossroads. We face two options: continue our descent toward big government, higher taxes, less individual liberty, and more debt or pull our country back on the path our Founding Fathers planned for us. But that path isn't always so easy to see. Following the success of his previous books, conservative historian Larry Schweikart tackles some of the key issues confronting our nation today: education, government bailouts, gun control, health care, the environment, and more. For each he asks, What would the founders say? and sets out to explore our history and offer wisdom to help us get back on track. What would really be compatible with the vision that Washington, Jefferson, Madison, and the other founders had for America? Written in Schweikart's informal yet informative style, What Would the Founders Say? is sure to delight his fans and anyone looking for a little clarity on tough issues.

48 liberal lies about american history larry schweikart: The Memory Hole Fritz Fischer, 2013-12-01 The U.S. history curriculum is under attack. Politicians, political analysts, and ideologues seek to wipe clean the slate of the American past and replace it with one of their own invention. The basis for this new narrative comes from political beliefs of the present, rather than any systematic examination of the past. These anti-historians campaign to insert their version of American history into the nation's classrooms, hoping to begin a process that will forever transform our understanding of America's past. The Memory Hole examines five central topics in the US history curriculum, showing how anti-historians of both the left and right seek to distort these topics and insert a refashioned story in America's classrooms. Ignoring facts, refashioning other facts and pretending that there are no rules in the telling of history, these re-interpreters of the past place the minds of America's young people in danger. The beleaguered hero of this book is the discipline of History, and The Memory Hole shows how the history curriculum should adhere to history's habits of mind that require complex, sophisticated and subtle thinking about the past. History and social studies teachers, students of history and all those who care about the deep and enduring value of history will value this book and its conclusions.

48 liberal lies about american history larry schweikart: *Debunking Howard Zinn* Mary Grabar, 2019-08-20 Howard Zinn's *A People's History of the United States* has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book *Debunking Howard Zinn*, which demolishes Zinn's Marxist talking points that now dominate American education. In *Debunking Howard Zinn*, you'll learn, contra Zinn: How Columbus was not a genocidal maniac, and was, in fact, a defender of Indians Why the American Indians were not feminist-communist sexual revolutionaries ahead of their time How the United States was founded to protect liberty, not white males' ill-gotten wealth Why Americans of the "Greatest Generation" were not the equivalent of Nazi war criminals How the Viet Cong were not well-meaning community leaders advocating for local self-rule Why the Black Panthers were not civil rights leaders Grabar also reveals Zinn's bag of dishonest rhetorical tricks: his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If you care about America's past—and our future—you need this book.

48 liberal lies about american history larry schweikart: *Adolescent Education* Joseph L. DeVitis, Linda Irwin-DeVitis, 2010 This book elucidates the complexities, contradictions, and confusion surrounding adolescence in American culture and education.

48 liberal lies about american history larry schweikart: *What If?* Eldon Taylor, 2011-03-15 What if you awoke tomorrow with amnesia—no memory of who you are, what you like and dislike, and so on. Would you be the same person? What if, as in the movie *The Matrix*, you discovered that everything was a simulation and you were just a programmed component? What if everything you believed was false? Who would you be then? Eldon Taylor has been researching the power of the mind for more than 25 years. He has repeatedly demonstrated the overt attempts that have been made to control your thinking. While very interesting in theory, most of us do not understand this on a personal level. It is easy to understand the concept of Mind Programming when it is occurring with someone else, but most would deny that they too are victims. *What If?* is a very personal book. By using everyday situations and guiding you through numerous thought experiments, Eldon does an excellent job of peeling back the layers and revealing the dissonance in much of your thinking, beliefs, desires, and choices—contradictory beliefs held at the same time with no apparent awareness. Once you have seen your own mind with the filtered lenses removed, it is impossible to remain the same. That is why so many have praised this work as being absolutely life-changing—not just a fascinating read—but a transformational experience!

48 liberal lies about american history larry schweikart: *The Patriot's History Reader* Larry Schweikart, Michael Allen, Dave Dougherty, 2011-06-28 An original collection of the most influential documents in American history, from the bestselling author of *A Patriot's History of the United States*. Since 2005, *A Patriot's History of the United States* has become a modern classic for its defense of America as a unique country founded on principles of justice, equality, and freedom for all. *The Patriot's History Reader* continues this tradition by going back to the original sources—the documents, speeches, and legal decisions that shaped our country into what it is today. The authors explore both oft-cited documents—the Declaration of Independence, Emancipation Proclamation, and *Roe v. Wade*—as well as those that are less famous. Among these are George Washington's letter to Alexander Hamilton, which essentially outline America's military strategy for the next 150 years, and Herbert Hoover's speech on business ethics, which examines the government's role in regulating private enterprise. By helping readers explore history at its source, this book sheds new light on the principles and personalities that have made America great.

48 liberal lies about american history larry schweikart: The First Thanksgiving Robert Tracy McKenzie, 2013-05-20 Veteran historian Robert Tracy McKenzie sets aside centuries of legend and political stylization to present the mixed blessing that was the first Thanksgiving. Like good narrative history, McKenzie's critical account of our Pilgrim ancestors confronts us with our own unresolved issues of national and spiritual identity.

48 liberal lies about american history larry schweikart: *The Myths of Tet* Edwin Moïse, 2017-11-21 Late in 1967, American officials and military officers pushed an optimistic view of the Vietnam War. Military Assistance Command, Vietnam (MACV) said that the war was being won, and that Communist strength in South Vietnam was declining. Then came the Tet Offensive of 1968. In its broadest and simplest outline, the conventional wisdom about the offensive—that it was a military defeat for the Communists but a political victory for them, because it undermined support for the war in the United States—is correct. But much that has been written about the Tet Offensive has been misleading. Edwin Moïse shows that the Communist campaign shocked the American public not because the American media exaggerated its success, but because it was a bigger campaign—larger in scale, much longer in duration, and resulting in more American casualties—than most authors have acknowledged. MACV, led by General William Westmoreland, issued regular estimates of enemy strength in South Vietnam. During 1967, intelligence officers at MACV were increasingly required to issue low estimates to show that the war was being won. Their underestimation of enemy strength was most extreme in January 1968, just before the Tet Offensive. The weak Communist force depicted in MACV estimates would not have been capable of sustaining heavy combat month after month like they did in 1968. Moïse also explores the errors of the Communists, using Vietnamese sources. The first wave of Communist attacks, at the end of January 1968, showed gross failures of coordination. Communist policy throughout 1968 and into 1969 was wildly overoptimistic, setting impossible goals for their forces. While acknowledging the journalists and historians who have correctly reported various parts of the story, Moïse points out widespread misunderstandings in regard to the strength of Communist forces in Vietnam, the disputes among American intelligence agencies over estimates of enemy strength, the actual pattern of combat in 1968, the effects of Tet on American policy, and the American media's coverage of all these issues.
