aimée carter bucher: The Subversive Evangelical Peter J. Schuurman, 2019-06-30
Evangelicals have been scandalized by their association with Donald Trump, their megachurches summarily dismissed as “religious Walmarts.” In *The Subversive Evangelical* Peter Schuurman shows how a growing group of “reflexive evangelicals” use irony to critique their own tradition and distinguish themselves from the stereotype of right-wing evangelicalism. Entering the Meeting House – an Ontario-based Anabaptist megachurch – as a participant observer, Schuurman discovers that the marketing is clever and the venue (a rented movie theatre) is attractive to the more than five thousand weekly attendees. But the heart of the church is its charismatic leader, Bruxy Cavey, whose anti-religious teaching and ironic tattoos offer a fresh image for evangelicals. This charisma, Schuurman argues, is not just the power of one individual; it is a dramatic production in which Cavey, his staff, and attendees cooperate, cultivating an identity as an “irreligious” megachurch and providing followers with a more culturally acceptable way to practise their faith in a secular age. Going behind the scenes to small group meetings, church dance parties, and the homes of attendees to investigate what motivates these reflexive evangelicals, Schuurman reveals a playful and provocative counterculture that distances itself from prevailing stereotypes while still embracing a conservative Christian faith.

Schools are more diverse than ever before, but the texts and materials that typify classroom curricula continue to prioritize so-called mainstream stories and perspectives. These canonical texts often exclude the nuanced identities and rich lived experiences of the very children sitting in today's classrooms. But kids thrive when they see themselves in texts and learn about the world around them by connecting with the experiences of others. Based on the authors' work with elementary school teachers over the last decade, this resource offers strategies for moving away from canonical texts. The authors present a four-part framework for selecting, using, and engaging students with texts that promote children's identity development, literacy engagement and comprehension, and learning across the content areas. The practical text provides guidance for setting learning goals that align with relevant standards and curricular directives, as well as classrooms examples, teaching strategies, and reflective questions. Book Features: An actionable way for teachers to move from theory to practice, using what we know about culturally relevant practice and critical literacy to create instruction that enhances children's classroom experiences and learning.
