Heart Of Darkness Folio Society

heart of darkness folio society: Heart of Darkness Joseph Conrad, 2012-08-28 In a novella which remains highly controversial to this day, Conrad explores the relations between Africa and Europe. On the surface, this is a horrifying tale of colonial exploitation. The narrator, Marlowe journeys on business deep into the heart of Africa. But there he encounters Kurtz, an idealist apparently crazed and depraved by his power over the natives, and the meeting prompts Marlowe to reflect on the darkness at the heart of all men. This short but complex and often ambiguous story, which has been the basis of several films and plays, continues to provoke interpretation and discussion. Heart of Darkness grew out of a journey Joseph Conrad took up the Congo River; the verisimilitude that the great novelist thereby brought to his most famous tale everywhere enhances its dense and shattering power. Apparently a sailor's yarn, it is in fact a grim parody of the adventure story, in which the narrator, Marlow, travels deep into the heart of the Congo where he encounters the crazed idealist Kurtz and discovers that the relative values of the civilized and the primitive are not what they seem. Heart of Darkness is a model of economic storytelling, an indictment of the inner and outer turmoil caused by the European imperial misadventure, and a piercing account of the fragility of the human soul.

heart of darkness folio society: Journeys into Darkness James Goho, 2014-03-06 The tradition of supernatural horror fiction runs deep in Anglo-American literature. From the Gothic novels of the eighteenth century to such contemporary authors as Stephen King and Anne Rice, writers have employed horror fiction to unearth many disquieting truths about the human condition, ranging from mistreatment of women and minorities to the ever-present dangers of modern city life. In Journeys into Darkness: Critical Essays on Gothic Horror, James Goho analyzes many significant writers and trends in American and British horror fiction. Beginning with Charles Brockden Brown's disturbing novels of terror and madness, Goho proceeds to discuss the influence of Edgar Allan Poe's "The Fall of the House of Usher" on H. P. Lovecraft, who is treated in several penetrating essays. Lovecraft was a uniquely philosophical writer, and Goho approaches his work through the lens of existentialist philosopher Søren Kierkegaard, while also probing Lovecraft's racism as exhibited in several tales about Native Americans. Goho also discusses the Welsh writer Arthur Machen's tortured tales of suffering and evil and Algernon Blackwood's numerous stories set in the wilds of the Canadian backwoods. The book concludes with a centuries-spanning essay on the witchcraft theme in the American Gothic tradition and a comprehensive essay on Fritz Leiber's invention of the urban Gothic. In this wide-ranging study, James Goho examines the varied ways in which supernatural

fiction can address the deepest moral, social, and political concerns of the human experience. Journeys into Darkness will be of interest to readers and scholars of horror fiction and to students of literary history and culture in general.

heart of darkness folio society: The African Revolution Richard Reid, 2025-01-28 A panoramic global history of Africa in the age of imperialism Africa's long nineteenth century was a time of revolutionary ferment and cultural innovation for the continent's states, societies, and economies. Yet the period preceding what became known as "the Scramble for Africa" by European powers in the decades leading up to World War I has long been neglected in favor of a Western narrative of colonial rule. The African Revolution demonstrates that the Scramble" and the resulting imperial order were as much the culmination of African revolutionary dynamics as they were of European expansionism. In this monumental work of history, Richard Reid paints a multifaceted portrait of a continent on the global stage. He describes how Africa witnessed the emergence of new economic and political dynamics that were underpinned by forms of violence and volatility not unlike those emanating from Europe. Reid uses a stretch of road in what is now Tanzania—one of the nineteenth century's most vibrant commercial highways—as an entry point into this revolutionary epoch, weaving a broader story around characters and events on the road. He integrates the African experience with new insights into the deeper currents in European societies before and after conquest, and he shows how the Africans themselves created opportunities for European expansion. Challenging the portrayal of Africa's transformative nineteenth century as a mere prelude to European colonialism, *The African Revolution* reveals how this turbulent yet hugely creative era for Africans intersected with global intrusions to shape the modern age.

heart of darkness folio society: Uncommon Wealths in Postcolonial Fiction Helga Ramsey-Kurz, Melissa Kennedy, 2017-11-01 *Uncommon Wealths in Postcolonial Fiction* engages urgently with wealth, testing current assumptions of inequality in order to push beyond reductive contemporary readings of the gaping abyss between rich and poor. Shifting away from longstanding debates in postcolonial criticism focused on poverty and abjection, the book marshals fresh

perspectives on material, spiritual, and cultural prosperity as found in the literatures of formerly colonized spaces. The chapters 'follow the money' to illuminate postcolonial fiction's awareness of the ambiguities of 'wealth', acquired under colonial capitalism and transmuted in contemporary neoliberalism. They weigh idealistic projections of individual and collective wellbeing against the stark realities of capital accumulation and excessive consumption. They remain alert to the polysemy suggested by "Uncommon Wealths," both registering the imperial economic urge to ensure common wealth and referencing the unconventional or non-Western, the unusual, even fictitious and contrasting privately coveted and exclusively owned wealth with visions of a shared good. Arranged into four sections centred on aesthetics, injustice, indigeneity, and cultural location, the individual chapters show how writers of postcolonial fiction, including Aravind Adiga, Amit Chau-dhuri, Anita Desai, Patricia Grace, Mohsin Hamid, Stanley Gazemba, Tomson Highway, Lebogang Matseke, Zakes Mda, Michael Ondaatje, Kim Scott, and Alexis Wright, employ prosperity and affluence as a lens through which to re-examine issues of race, ethnicity, gender, and family, the cultural value of heritage, land, and social cohesion, and such conflicting imperatives as economic growth, individual fulfilment, social and environmental responsibility, and just distribution. When Bythell first thought of taking over the store, it seemed like a great idea: The Bookshop is Scotland's largest second-hand store, with over one hundred thousand books in a glorious old house with twisting corridors and roaring fireplaces, set in a tiny, beautiful town by the sea. It seemed like a book-lover's paradise . . . Until Bythell did indeed buy the store. In this wry and hilarious diary, he tells us what happened next—the trials and tribulations of being a small businessman; of learning that customers can be, um, eccentric; and of wrangling with his own staff of oddballs (such as ski-suit-wearing, dumpster-diving Nicky). And perhaps none are quirrier than the charmingly cantankerous bookseller Bythell himself turns out to be. But then too there are the buying trips to old estates and auctions, with the thrill of discovery, as well as the satisfaction of pressing upon people the books that you love . . . Slowly, with a mordant wit and keen eye, Bythell is seduced by the growing charm of small-town life, despite —or maybe because of—all the peculiar characters there.

heart of darkness folio society: The Ethics of Trade and Aid Christopher D. Wraight, 2011-02-03 International development is now more topical than ever. Billions of dollars have been given in grants or spent on the infrastructure of the development industry. The global aid and trade industry is gigantic and high-profile. It is also hugely controversial. Trade deals are accused of being 'unfair'. Aid agencies are suspected of wasting funds, or engaging with corrupt regimes, or encouraging dependency. Despite the vast amounts of political capital spent on international development, it remains unclear what works and what doesn't. Global inequality remains stark. Economic analysis can help resolve some of these issues. But some of the questions raised are of a more fundamental nature. They are issues of fairness, equity, right and wrong. The Ethics of Trade and Aid demonstrates how political philosophy provides us with insights often passed over in modern development jargon. Christopher Wraight scrutinises the trade and aid industry through the lens of philosophy and ultimately shows that a compassionate, rational and humane engagement with the global economy does hold the promise of a better, more equal life.

The ongoing Russian invasion of Ukraine brings the principles of Nuremberg to the forefront of discussions on justice, raising questions about the feasibility of Nuremberg-style accountability. The book touches upon the abduction of Ukrainian children and the destruction of Ukrainian cultural heritage. Contributors also discuss the topic of war crime tribunals after Nuremberg, including Timor and former Yugoslavia, as well as tribunals in Rwanda, Sierra Leone, and others leading up to the International Criminal Court (ICC). Including essays by Oleksandra Matviichuk, the Ukrainian Nobel Laureate, and Ambassador Dr. Anton Korynevych, Ukrainian minister and specialist in international law, this book considers the contemporary relevance of the Nuremberg principles in the context of the Russian invasion of Ukraine.

Form, he argues, is not accidental or merely functional. The author arrives at a form through a careful negotiation between the self's immersion in its world and its ability to distance itself from this world. The quality of the resultant self-scrutiny enables the author to transform everyday reflex into the act of attention that results in formal achievement, a uniquely crafted structure. Meihuizen's book helps demonstrate how each piece of autobiographical writing under consideration in it (works by Yeats, Conrad, Martin Amis, Frank Kermode, Andrew Motion, Roy Campbell, Richard Murphy, and J.M. Coetzee) discovers a unique form.

heart of darkness folio society: *Empire Under the Microscope* Emilie Taylor-Pirie, 2021-11-26 This open access book considers science and empire, and the stories we tell ourselves about them. Using British Nobel laureate Ronald Ross (1857-1932) and his colleagues as access points to a wider professional culture, *Empire Under the Microscope* explores the cultural history of parasitology and its relationships with the literary and historical imagination between 1885 and 1935. Emilie Taylor-Pirie examines a wealth of archival material including medical lectures, scientific publications, popular biography, and personal and professional correspondence, alongside novels, poems, newspaper articles, and political speeches, to excavate the shared vocabularies of literature and medicine. She demonstrates how forms such as poetry and biography; genres such as imperial romance and detective fiction; and modes such as adventure and the Gothic, together informed how tropical diseases, their parasites, and their vectors, were understood in relation to race, gender, and nation. From Ancient Greece, to King Arthur's Knights, to the detective work of Sherlock Holmes, parasitologists manipulated literary and historical forms of knowledge in their professional self-fashioning to create a modern mythology that has a visible legacy in relationships between science and society today.

heart of darkness folio society: *Melville: Fashioning in Modernity* Stephen Matterson, 2014-07-31 *Melville: Fashioning in Modernity* considers all of the major fiction with a concentration on lesser-known work, and provides a radically fresh approach to Melville, focusing on: clothing as socially symbolic; dress, power and class; the transgressive nature of dress; inappropriate clothing; the meaning of uniform; the multiplicity of identity that dress may represent; anxiety and modernity. The representation of clothing in the fiction is central to some of Melville's major themes; the relation between private and public identity, social inequality and how this is maintained; the relation between power, justice and authority; the relation between the civilized and the savage. Frequently clothing represents the malleability of identity (its possibilities as well as its limitations), represents writing itself, as well as becoming indicative of the crisis of modernity. Clothing also becomes a trope for Melville's representations of authorship and of his own scene of writing. *Melville: Fashioning in Modernity* also encompasses identity in transition, making use of the

examination of modernity by theorists such as Anthony Giddens, as well as on theories of figures such as the dandy. In contextualizing Melville's interest in clothing, a variety of other works and writers is considered; works such as Robinson Crusoe and The Scarlet Letter, and novelists such as Fenimore Cooper, Nathaniel Hawthorne, Henry James, Jack London, and George Orwell. The book has at its core a consideration of the scene of writing and the publishing history of each text.
