At five-foot-four, his face and arms scarred by fire in a motorcycle accident, he would not spring to mind as a leader of Canada's most notorious biker gang, the Hells Angels. yet through sheer guts and determination, intelligence and luck, this Hamilton-born youth who had the nickname of Nurget rose in the Hells Angels ranks to become national president. Not only did he lead the Angels through the violent war with their rivals the rock machine in Montreal in the Nineties, Stadnick saw opportunity to grow the Hells Angels into a national criminal gang. he was a visionary--and a highly successful one. Bikers are not known for their fondness for rival gangs. Stadnick and the Angels fought and defeated rival gangs, or used power of persuasion to patch them over. As Stadnick's influence spread, law enforcement took notice of the growing presence of the

Angels in Ontario, Manitoba and British Columbia. However, Stadnick's success did not come without a price. in the arms of the angels: Hell To Pay Neal Hall, 2013-09-10 Michael Plante, a low-level Hells Angels dog's body in Vancouver, is arrested for extortion in 2003. Coincidentally, police intercept a boat carrying cocaine from Colombia to Vancouver, a shipment arranged by the East End chapter of Vancouver's Hells Angels. The cops need to send someone inside to gather evidence that can be used to arrest and convict the gang. Plante does not want to go to jail. He cuts a deal, and so begins a descent into the nightmare of going undercover in the Hells Angels. The stakes are high. The East End chapter of the Hells Angels is one of the richest in the world. The cops need clear and substantial evidence that will hold up in court to convict four prominent members of the East End chapter-Ronaldo Lising, Randy Potts, John Virgil Punko, and Jean Joseph Violette-on weapons charges and extortion, and of committing crimes in association with, or for the benefit of, a criminal organization. Plante is guaranteed \$500,000 for his role in Project E-Pandora, plus another \$500,000 at the conclusion of the trials. When he signs the agreement, he says he was signing his death warrant. The police investigation takes two years at a cost of \$10 million. In June 2005, the police begin rounding up bikers and their associates, raiding clubhouses in east Vancouver and Kelowna, carting away boxes of material, computers and even the Hells Angels' most prized possessions-leather vests emblazoned with the Hells Angels patches. Plante soon learns how slowly the justice system moves as it prepares to prosecute the Hells Angels members arrested. The high-profile and highly paid defence lawyers win applications to sever the indictment into a number of trials, meaning that Plante will face months on the witness stand under heavy grilling as the defence teams try to discredit him, accusing him of committing illegal activity such as drug dealing and transporting illegal weapons. Much is riding on the trials: Plante's life and livelihood; the test of the federal government's legislation on gangsterism that could dismantle the Hells Angels; and the

freedom of the accused--all high-ranking and enormously wealthy Hells Angels. The judge's final ruling shocks the court. Hell to Pay is true crime reading at its best as it evokes the criminal underworld through the eyes of a biker who wanted his freedom but lives in constant fear of being found by those he put behind bars.

in the arms of the angels: The "Ur-Nammu" Stela Jeanny Vorys Canby, 2006 Ur-Nammu was king of Ur in ancient Mesopotamia (southern Iraq) around 2000 B.C. In 1925 a joint expedition from the University of Pennsylvania Museum and the British Museum discovered dozens of fragments of a monument in honor of Ur-Nammu. Because such works have rarely survived, the stela became one of the most famous examples of Near Eastern art, a status it retains today. The stela had been ten feet high with registers in relief of scenes of religious practices on both front and back. By 1927 the best pieces had been restored in Philadelphia into an imagined version of the stela, with plaster filling the gaps. But more than twice as many small or worn pieces were omitted from the restoration and dutifully stored in boxes at the Museum. Jeanny Vorys Canby realized that the early reconstruction had been too hasty, and her meticulous, painstaking reexamination reveals a wealth of new scenes that revise our understanding of the monument. This book includes the justification of the reconstructions, description of the scenes, speculation on the ancient fate of the stela, as well as a description of each piece with photograph and drawing. These vigorous, innovative scenes contradict the long-held view from the old reconstruction that the monument was dull and repetitive. In fact, it is fresh and vibrant, with dynamic scenes peopled by beautifully sculpted actors. Entirely new evidence is presented here in scientific detail, including appendices from Steven Tinney, of the Museum's Babylonian Section, and Tamsen Fuller, conservationist. The book's conclusions will be of major significance to historians, archaeologists, art historians, biblical scholars, and anthropologists working in the ancient Near East and to scholars concerned with institutions of kinship, religion, and everyday life.
