hanau ka ua hawaiian names: *Ni'ihau Place Names* John R. K. Clark, 2023-10-31 The story of Ni'ihau has been told many times by many people, but Ni'ihau Place Names adds new information to the island's history from a unique source: Hawaiian-language newspapers. From 1834 to 1948, approximately 125,000 pages of Native Hawaiian expression were printed in more than 100 different newspapers. John R. K. Clark has gathered and edited a large collection of invaluable articles that recorded daily life on Ni'ihau, events and topics of interest, and the island's place names. Additionally, Keao NeSmith, a Native Hawaiian of Kaua'i and an applied linguist, translator, and researcher fluent in 'ōlelo Hawai'i, translated each passage into English. Most of these excerpts have not appeared in any other publication. Ni'ihau is unique in the state of Hawai'i because it is the only island that is entirely privately owned. In 1864, Kamehameha V, the monarch of the Kingdom of Hawai'i, sold the island to the Sinclairs, a wealthy immigrant family looking to establish a ranching business. Descendants of the Sinclairs still own the island today. Diverse opinions about the sale of Ni'ihau were published in newspapers across the Hawaiian Islands, and this book traces the development and aftershocks of that historic event. Ni'ihau Place Names contains over thirty kanikau (dirges, poetic chants) written and published from 1845 to 1931 to honor deceased Ni'ihau residents. These compositions of deep emotion are treasuries of language, history, genealogy, cultural knowledge, and especially place names. Another important contribution in this volume is the identification of 'ōlelo no'eau (proverbs and poetical sayings) with demonstrations of their use in everyday conversation. The book is divided into two main sections. "Ni'ihau Place Names" is an alphabetical list of prominent place names on the island, accompanied by relevant passages in Hawaiian and their English translations. The list also includes Lehua, the small island near the

northwest tip of Ni'ihau. "Ni'ihau History" is an additional collection of articles that includes many lesser-known place names and elucidates other topics deemed worthy by reporters and contributors of the time. Following the main text, readers will find helpful indexes of general terms, place names, and personal names.

hanau ka ua hawaiian names: Hawaii Place Names John R. K. Clark, 2003-05-14 In his latest book, John Clark, author of the highly regarded *Beaches of Hawaii* series, gives us the many captivating stories behind the hundreds of Hawaii place names associated with the ocean--the names of shores, beaches, and other sites where people fish, swim, dive, surf, and paddle. Significant features and landmarks on or near shores, such as fishponds, monuments, shrines, reefs, and small islands, are also included. The names of surfing sites are the most numerous and among the most colorful: from the purely descriptive (Black Rock, Blue Hole) to the humorous (No Can Tell, Pray for Sex). Clark began gathering information for the *Beaches* series in 1972, and during the years that followed interviewed hundreds of informants, many of them native Hawaiians, and consulted dozens of Hawaiian reference books, newspapers, and maps. A significant amount of the oral history he collected was unrecorded and remained only in his notebooks and memory. *Hawaii Place Names: Shores, Beaches, and Surf Sites* is the final result of those years of research, and like its popular predecessors, it benefits substantially from Clark's having spent a lifetime surfing and swimming Hawaii's beaches. Presented in the same convenient format as Pukui, Elbert, and Mookini's *Place Names of Hawaii* (UH Press, 1974) this rich compendium of information on Hawaii's surf, shore, and beach sites will satisfy visitors and residents alike.

Clark, 2014-10-31 In *North Shore Place Names: Kahuku to Ka'ena*, ocean expert John Clark continues his fascinating look at Hawai'i's past as told through the stories hidden in its place names. This time the author takes the reader on a historical tour of the North Shore of O'ahu, from Kahuku (the north point of the island) to Ka'ena (the west point of the island), and uncovers the everyday lives of the residents, especially prior to the plantation era. Similar to his 2011 book, *Hawaiian Surfing*, to research this book Clark tapped into the Ho'olaupa'i online database (www.nupepa.org): a vast archive of 125,000 pages of Hawaiian-language newspapers published from 1834 to 1948. The author collected an enormous number of references to specific North Shore locations and presents them in an easy-to-use dictionary-style format, which includes original passages in Hawaiian with English translations by Keao NeSmith. Discover these highlights and others in this unique look at O'ahu's North Shore: Letters from the longtime principal of the girls' school that eventually gave Hale'iwa its name. Katharina Ruckstuhl, Irma A. Velásquez Nimatuj, John-Andrew McNeish, Nancy Postero, 2022-11-30 This Handbook inverts the lens on development, asking what Indigenous communities across the globe hope and build for themselves. In contrast to earlier writing on development, this volume focuses on Indigenous peoples as inspiring theorists and potent political actors who resist the ongoing destruction of their livelihoods. To foster their own visions of development, they look from the present back to Indigenous pasts and forward to Indigenous futures. Key questions: How do Indigenous theories of justice, sovereignty, and relations between humans and non-humans inform their understandings of development? How have Indigenous people used Rights of Nature, legal pluralism, and global governance systems to push for their visions? How do Indigenous relations with the Earth inform their struggles against natural resource extraction? How have native peoples negotiated the dangers and benefits of capitalism to foster their own life projects? How do Indigenous peoples in diaspora and in cities around the world contribute to Indigenous futures? How can Indigenous intellectuals, artists, and scientists control their intellectual property and knowledge systems and bring into being meaningful collective life projects? The book is intended for Indigenous and non-Indigenous activists, communities, scholars, and students. It provides a guide to current thinking across the disciplines that converge in the study of development, including geography, anthropology, environmental studies, development studies, political science, and Indigenous studies.
