**jacob berman history valley: Bible Stories** Gavin Evans, 2025-10-23 Beginning with the rise of modern Pentecostalism before tracking back 2,500-years, author and academic Gavin Evans traces the history of the Abrahamic faiths, Christianity, Judaism and Islam. In this book he explores the New Testament, Hebrew Bible and the Qur'an. Delving into recent archaeological research, Bible Stories presents evidence that tales such as those of Abraham, Isaac and Jacob, and also Moses, Joshua and the Exodus, were entirely mythological. Robust interrogation of the evidence allows Evans to go further still, casting doubt on the Jesus story and arguing that even if he did exist as an historical figure, we know next to nothing about him. As well as examining these key religious texts, Bible Stories also holds modern atheism to account - critiquing the work of some of its most ardent advocates, Evans rejects a militant approach and makes a compelling argument for a softer, more tolerant atheism.

**jacob berman history valley: *Surveillance Valley*** Yasha Levine, 2018-02-06 The internet is the most effective weapon the government has ever built. In this fascinating book, investigative reporter Yasha Levine uncovers the secret origins of the internet, tracing it back to a Pentagon counterinsurgency surveillance project. A visionary intelligence officer, William Godel, realized that the key to winning the war in Vietnam was not outgunning the enemy, but using new information technology to understand their motives and anticipate their movements. This idea -- using computers to spy on people and groups perceived as a threat, both at home and abroad -- drove ARPA to develop the internet in the 1960s, and continues to be at the heart of the modern internet we all know and use today. As Levine shows, surveillance wasn't something that suddenly appeared on the internet; it was woven into the fabric of the technology. But this isn't just a story about the NSA or other domestic programs run by the government. As the book spins forward in time, Levine examines the private surveillance business that powers tech-industry giants like Google, Facebook, and Amazon, revealing how these companies spy on their users for profit, all while doing double duty as military and intelligence contractors. Levine shows that the military and Silicon Valley are effectively inseparable: a military-digital complex that permeates everything connected to the internet, even coopting and weaponizing the antigovernment privacy movement that sprang up in the wake of Edward Snowden. With deep research, skilled storytelling, and provocative arguments, *Surveillance Valley* will change the way you think about the news -- and the device on which you read it.

Silver, 2022-01-28 This study of Galilee in modern times reaches back to the region's Biblical roots and points to future challenges in the Arab-Jewish conflict, Israel's development, and inter-faith relations. This volume covers an array of subjects, including Kabbalah, the rise of Palestinian nationalism, modern Christian approaches to Galilee's past and present, Zionist pioneering, the roots of the Arab-Jewish dispute, and the conflict's eruption in Galilee in 1948. The book shows how the modernization of Galilee intertwined with mystical belief and practice, developing in its own grassroots way among Palestinians, Orthodox Jews, Christians, and Druze, rather than being a byproduct of Western intervention. In doing so, *The History of Galilee, 1538-1949: Mysticism, Modernization, and War* offers fresh, challenging perspectives for scholars in the history of religion, military history, theology, world politics, middle eastern studies, and other disciplines.

**jacob berman history valley: *Digging for History at Old Washington*** Mary L. Kwas, 2009-02-01 Positioned along the legendary Southwest Trail, the town of Washington in Hempstead County in southwest Arkansas was a thriving center of commerce, business, and county government in the nineteenth century. Historical figures such as Davy Crockett and Sam Houston passed through, and during the Civil War, when the Federal troops occupied Little Rock, the Hempstead County Courthouse in Washington served as the seat of state government. A prosperous town fully involved in the events and society of the territorial, antebellum, Civil War, and Reconstruction eras, Washington became in a way frozen in time by a series of events including two fires, a tornado, and

being bypassed by the railroad in 1874. Now an Arkansas State Park and National Historic Landmark, Washington has been studied by the Arkansas Archeological Survey over the past twenty-five years. Digging for History at Old Washington joins the historical record with archaeological findings such as uncovered construction details, evidence of lost buildings, and remnants of everyday objects. Of particular interest are the homes of Abraham Block, a Jewish merchant originally from New Orleans, and Simon Sanders from North Carolina, who became the town's county clerk. The public and private lives of the Block and Sanders families provide a fascinating look at an antebellum town at the height of its prosperity.

**jacob berman history valley: Convening Black Intimacy** Natasha Erlank, 2022-11-08 An unprecedented study of how Christianity reshaped Black South Africans' ideas about gender, sexuality, marriage, and family during the first half of the twentieth century. This book demonstrates that the primary affective force in the construction of modern Black intimate life in early twentieth-century South Africa was not the commonly cited influx of migrant workers but rather the spread of Christianity. During the late nineteenth and early twentieth centuries, African converts developed a new conception of intimate life, one that shaped ideas about sexuality, gender roles, and morality. Although the reshaping of Black intimacy occurred first among educated Africans who aspired to middle-class status, by the 1950s it included all Black Christians—60 percent of the Black South African population. In turn, certain Black traditions and customs were central to the acceptance of sexual modernity, which gained traction because it included practices such as lobola, in which a bridegroom demonstrates his gratitude by transferring property to his bride's family. While the ways of understanding intimacy that Christianity informed enjoyed broad appeal because they partially aligned with traditional ways, other individuals were drawn to how the new ideas broke with tradition. In either case, Natasha Erlank argues that what Black South Africans regard today as tradition has been unequivocally altered by Christianity. In asserting the paramount influence of Christianity on unfolding ideas about family, gender, and marriage in Black South Africa, Erlank challenges social historians who have attributed the key factor to be the migrant labor system. Erlank draws from a wide range of sources, including popular Black literature and the Black press, African church and mission archives, and records of the South African law courts, which she argues have been underutilized in histories of South Africa. The book is sure to attract historians and other scholars interested in the history of African Christianity, African families, sexuality, and the social history of law, especially colonial law.

**jacob berman history valley: Maize Cobs and Cultures: History of Zea mays L.** John Staller, 2009-12-02 Our perceptions and conceptions regarding the roles and importance of maize to ancient economies is largely a product of scientific research on the plant itself, developed for the most part out of botanical research, and its recent role as one of the most important economic staples in the world. Anthropological research in the early part of the last century based largely upon the historical particularistic approach of the Boasian tradition provided the first evidence that challenged the assumptions about the economic importance of maize to sociocultural developments for scholars of prehistory. Subsequent ethnobotanic and archaeological studies showed that the role of maize among Native American cultures was much more complex than just as a food staple. In *Maize Cobs and Cultures*, John Staller provides a survey of the ethnohistory and the scientific, botanical and biological research of maize, complemented by reviews on the ethnobotanic, interdisciplinary and multidisciplinary methodologies.

**jacob berman history valley: *History Of The Third Infantry Division In World War II*** Lt. Donald G. Taggart, 2016-03-28 Few units in the U.S. Army can boast as proud a unit history as the Third Infantry Division; it fought on all of the Europe and North African fronts that American soldiers were engaged against the Axis forces during World War II. The 3rd Infantry Division saw combat in North Africa, Sicily, Italy, France, Germany and Austria for 531 consecutive days. In this official division history written by the officers who served with the unit at the time serves as a fascinating memorial

and a detailed history of the “Marne Division” during World War II. The 3rd Inf. Division made landfall in Fedala on the 8th November 1942 as part of Operation Torch during the Allied invasion of North Africa and was engaged in heavy fighting before the German and Italian troops were finally levered out of the continent. The division was back in the thick of the fighting in Sicily under the command of such famous leaders as Generals Lucien Truscott, Omar Bradley and George S. Patton. As part of General Mark Clark’s U.S. Fifth army it engaged in some of the bloodiest engagements of the Italian campaign at Salerno beaches, Volturno river, Monte Cassino and Anzio. Under their old division commander General Truscott they formed part of the force that landed in Southern France and battled into the heart of Germany before the eventual capitulation of the Nazi High command in 1945. Richly illustrated with maps and pictures throughout.
