Founded in 1910 by charismatic faith-healer Isaiah Shembe, the Nazareth church, with over four million members, has become an influential social and political player in the region. Deeply influenced by a transnational evangelical literary culture, Nazareth believers have patterned their lives upon the Christian Bible. They cast themselves as actors who enact scriptural drama upon African soil. But Nazareth believers also believe the existing Christian Bible to be in need of updating and revision. For this reason, they have written further scriptures - a new 'Bible' - which testify to the miraculous work of their founding prophet, Shembe. Joel Cabrita's book charts the key role that these sacred texts play in making, breaking and contesting social power and authority, both within the church and more broadly in South African public life.
