Contemporary viewing practices and new media technologies have resulted in complex television narratives, in which experimental temporalities and revisions of narrative linearity and chronological time have become key features. guiding light josh and reva: It's Time for My Story Carol T. Williams, 1992-10-30 Soap opera story, the only mass-public form of continuing narrative today, is oral culture for our electronic era. Carol Williams' *It's Time for My Story* is an examination of soap opera sources, structure, and response, particularly from the critical viewpoints of psychology, both archetypal and empirical, and popular culture, specifically narratology and feminism, that uncover the true nature of the genre. First, Williams traces the development of soap opera from its immediate source in radio and television as well as from its fundamental source in age-old myth and storytelling. Then she analyzes the content and form that together make up the structure of soap opera. Finally, she looks at what soaps mean to watchers and in the process debunks many myths about soap opera (for instance, the myth that soap opera, like all television drama, is merely commercial, produced formulaically by advertisers; Williams argues that soap opera is not only a commercial product but also a popular art form derived from the wellspring of culture and folk story). She also argues that it is a form which has been depreciated because it is historically a woman's medium. Discussions with writers, creators, and fans are included throughout. Recommended to scholars and students of media, drama, popular culture, and women's studies.

guiding light josh and reva: Queer South Rising Reta Ugena Whitlock, 2013-03-01 *Queer South Rising: Voices of a Contested Place* is a collection of essays about the South by people who identify as both Southern and queer. The collection's name hints at the provocative nature of its contents: placing Queer and South side-by-side challenges readers to think about each word differently. The idea that a queer South might rise undermines the Battle Cry of "The South's Gonna rise Again!" embedded in the collective memory of a conservative South. This rising does not refer to a kind of Enlightenment transcendence where the region achieves some sort of distinctive prominence. It suggests instead ruptures, like furrows in a plowed field where seeds are sown. The rising Whitlock envisions is akin to breaking and turning over meanings of Southern place. The title further serves to remind readers of the complexities of the place as it calls into question notions of a universal, homogenous LGBT, queer, identity. *Queer South Rising* is the first truly interdisciplinary collection of essays on the South and queerness that deliberately aims for multiple approaches to the topics. This collection is intended for a wide audience of "regular" folks. Essays explore multiple

intersections of Southern place—religion, politics, sexuality, race, education—that transcend regional boundaries. This book counters conventional scholarly texts; it invites all readers interested in the South and queer themes to engage with the narratives it holds—and perhaps question their assumptions. Whitlock has sought, in collecting these essays, to seek out a diverse group of authors—across disciplines, professions, and interests—to shatter perceptions about a nostalgic, romanticized Southern culture in general.

guiding light josh and reva: *A Whole World of Trouble* Helen Chappell, 2003-04-08 In the tradition of Fannie Flagg, veteran storyteller Helen Chappell, acclaimed author of *Giving Up the Ghost*, presents a wry, funny, and poignant novel about two sisters, their dead mother, and a Chesapeake Bay town where anything can happen and frequently does. Sometimes you have to go home again, even if you know the trip is going to be one from hell. When Carrie points her van in the direction of Oysterback, Maryland, her old hometown, she does it only because she has no choice. Her momma, the indomitable Audrey, has done the unthinkable: she's died. And it wasn't a neat little Oysterback death either. No, it happened in Florida and involved an alligator. But, then again, there was nothing conventional about Audrey, even in life. The same could be said for her daughter Carrie -- single, perpetually searching, and professionally adrift, she has become an expert at yard sales, sifting through the detritus of other folks' lives, then reselling it to shops that sell antiques and assorted collectibles. Her sister, Earlene, considers Carrie a junk collector, but then Earlene has devoted her life to being conventional. Married with two boys, she has remained in Oysterback where she and her husband run the View 'n' Chew, a combination video store-sandwich shop. Momma had lived by the notion that a woman is incomplete without a man and spent the years following her husband's death trying to be as complete as humanly possible -- in the process working her way through a whole parade of men. As best Carrie can figure, her momma's last two flames were Alonzo Deaver, the town's resident miscreant and a current resident of the state penitentiary, and Jack Shepherd, a college professor on the run from failure and boredom. Both had been granted carte blanche to crash at Momma's house whenever the occasion should arise (be it Alonzo's planned escape from prison or Jack's escape from his ratty little boat). Once back in Oysterback, Carrie finds herself unwittingly caught up in a family drama of epic proportions -- including Earlene's resentment (which leads to a classic -- and very messy -- confrontation), a now-married ex-boyfriend's attempt to rekindle an old flame, her own attraction to Professor Jack, and a roiling stew of anger and grief over Momma's poorly timed passing. For while Carrie never expected to go home again, she naively believed it always would be there. *A Whole World of Trouble* is a delightfully authentic comedy of Southern manners and an antic, frequently hilarious, pointed, and moving novel by a writer who knows the people and the world she writes about.

In *Her Stories*, Elana Levine draws on archival research and her experience as a longtime soap fan to provide an in-depth history of the daytime television soap opera as a uniquely gendered cultural form and a central force in the economic and social influence of network television. Closely observing the production, promotion, reception, and narrative strategies of the soaps, Levine examines two intersecting developments: the role soap operas have played in shaping cultural understandings of gender and the rise and fall of broadcast network television as a culture industry. In so doing, she

foregrounds how soap operas have revealed changing conceptions of gender and femininity as imagined by and reflected on the television screen.
